

### INVITATION

## A look into the engine room of the coming IPCC Sixth Assessment Report

| Date         | October 27th, 2016, 13-16 hrs                                  |  |
|--------------|--|--|
| Venue        | UNEP DTU Partnership, UN City, Marmorvej, DK-2100 Copenhagen Ø |  |
| Participants | Researchers from Danish universities and research institutions |  |
| Hosts        | Danish IPCC focal point and DTU                                |  |
| Registration | www.tilmeld.dk\IPCC-event-UN-City                              |  |

#### PARTICIPATION IS FREE OF CHARGE

#### PLEASE REGISTER NO LATER THAN 25 OCTOBER 2016

IPCC will produce three Special Reports, a Methodology Report on national greenhouse gas inventories and the Sixth Assessment Report (AR6). During the coming months the international author teams will be nominated. Danish researchers and research institutions play an important role in building international knowledge on climate change and its effects, and not least on how to respond to climate change. The event will provide information on the process behind the report and on how to become a part of the IPCC author team and what it involves. The goal is to secure high visibility for the Danish expertise and research in all aspects of climate: climate change, impacts of climate change, adaptation, green solutions and mitigation, economic aspects, etc.

The work of the IPCC take place independent of the UN's Framework Convention on Climate Change, but is central to the Paris Agreement. IPCC reports serve as a solid foundation for the Convention on Climate Change, and the fifth assessment report was an important input to the design of the Paris Agreement, which encouraged the IPCC to prepare a special report on limiting global warming to 1.5°C.

# PROGRAMME

Moderator: Katrine Krogh Andersen, Dean of Research, Senior Vice President, DTU

| Time          | Activity   | Speaker   |
|---------------|--|---|
| 13:00 - 13:10 | Welcome  | Anders Bjarklev, President, Technical University of Denmark   |
| 13:10 - 13:20 | Denmark and IPCC/climate policy plan                               | Minister Lars. Chr. Lilleholt, Ministry of Energy, Utilities and Climate  |
| 13:20 - 14:00 | Scientific priorities for AR6 (covering all 3 WG). Timing. Process | Jim Skea, Professor, Imperial College, Chair<br>WG III  |
| 14:00 - 14:15 | Author-perspectives and experiences, WG I                          | Jens Hesselbjerg Christensen, PhD, Research<br>Leader, Danish Meteorological Institute                            |
| 14:15 - 14:30 | Author-perspectives and experiences, WG II                         | John Roy Porter, Professor, Section for Crop<br>Sciences, University of Copenhagen                                |
| 14:30 - 15:00 | Coffee break   |   |
| 15:00 - 15:15 | Author-perspectives and experiences, WG III                        | Kirsten Halsnæs, Professor, DTU Management<br>Engineering   |
| 15:15 - 15:30 | Nexus - climate policy and science                                 | John M. Christensen, Director of UNEP DTU<br>Partnership, DTU Management Engineering                              |
| 15:30 - 15:45 | About the IPCC, how to get involved, process etc.                  | <b>Tina Christensen</b> , PhD, Scientific Officer,<br>Danish IPCC Focal point, Danish<br>Meteorological Institute |
| 15:45 - 16:00 | Closure  | Katrine Krogh Andersen  |

#### **Practical information**

For security reasons, only persons who have signed up for the event will be given access to the UN City, and all guests must bring picture ID (passport or driver's license) and go through a security check similar to that at an airport. Therefore, we advise you to show up early, bring a picture ID and leave any dangerous goods at home.

Parking can take place in the underground car park next to the UN City. You will be charged a parking fee.
