

**Emne:** ATT. URU Requesting a meeting with Udenrigsudvalget

Dear Honorable members,

**As a Dane political officer for the United Nations. I have insight on the situations in Sudan, Chad, and the armed movements stationed in Libya. I would like to brief and share the valuable information to the Udenrigsudvalget.**

The situation in Sudan is having ripple effects on neighboring countries, and the Sahel crisis spanning from Mali to the Red Sea is deeply concerning. The huge increasing influx of individuals seeking refuge will increase significantly and burden on European nations, necessitating a serious response to this complex issue. A key challenge faced by humanitarian organizations and stakeholders is gaining access to vulnerable populations in need.

The conflict dynamics have evolved into a more intricate web, complicating the delivery of critical life-saving aid to those trapped in conflict zones, such as Khartoum, the Kordofans, and the Darfur states. In Khartoum state, approximately 3.9 million individuals (55% of the population) are experiencing high levels of food insecurity.

Thank you.

Best regards

Musse Id
