Dear Sir,

I am to see that are new laws proposed which will reduce the democratic freedom of parents. My children have been to both state to both schools and Friskole, and I am very glad I was able I was able to choose.

I feel this freedom has ^{been} one of the things which set Denmark apart from many other countries and I object in the strongest possible way to any erosion of these parental rights as laid out in the current laws of the country.
please take my voice into consideration

Your sincerely.

A stylized, cursive signature flourish consisting of several overlapping loops and a long horizontal stroke.
