Vedr. det ændringsforslag som vil blive fremsat den 3. dec.04 omkring friskoler.

København, 30. november 2004

It would please me, to see that you vote the proposal on changes on free schools on December the 3rd down.

I was a student in a private school from the age of 4. I went to school there until I was 15. I am now 18 and I have a job where I have worked for 2 years and it is going great.

The school has a way of teaching which cannot be found in any other school. I have achieved very much from their system of teaching. The school has not only taught me subjects but they have also taught me how to study. I use that in everything I study. I am capable of applying everything I was taught. This is because, with the school's help, I have understood all that they have taught me.

While I was in school I had gone on a holiday with my family to Los Angeles, United States of America. We were there for 3 weeks. I had a fantastic time. One of the reasons for the great time I had is that I was able to understand everything. When people were talking, all the signs. There was nothing I couldn't understand. I would not have been able to do this if the school had not taught me English.

Som I kan se kan jeg skrive og tale flydende engelsk og dansk. Jeg er dansker og det er mine forældre også. Som der kan ses på starten af brevet har jeg taget hele folkeskolen på privat skolen og det har været til min fordel, da jeg nu kan tale og skrive flydende dansk og engelsk.

Med venlig hilsen,

Bella-Christelle Christjorn
Tidligere elev på privat skole
