

This law is ^{not} democratic. I have a child who goes in SIA and he is very happy with the school system.

I would ^{like} him to continue in his school because of the nice teacher and good teaching methodology.

I would really appreciate that if the government is concerned with children education and let the children have more choice to choose their own school.

Dear Sirs,

I just want to express my view point on the law that will restrict the free schools (friskoler). I think that we parents should have the right to choose the school with the ideas and director that we think are best-suited for our children.

I think that is one of the basic human rights that should remain, especially in a ~~country~~ free country like Denmark.

Yours sincerely,

Tuyen Hoang

Sir / Mam,

With regards to your proposal for a law to free schools & make them more a parallel w/ public school, we are not in favor w/ the following reasons:

1. We want our right & freedom to choose schools fitted for our children.
2. We want our children to be self-sufficient & responsible for their own learning.
3. We want our children to be always prepare for a challenges & be updated with the new technologies.
4. We want our children to be always active in the school as well as outside because of what they are learning in the school we choose for them.

For 2 år siden hentede jeg min søn, hertil D.K. hvor jeg bor. Da han kom kunne han kun snakke Russisk og lidt Tysk, han havde lært i skolen. Dergey kunne ikke starte i Folkeskolen med det samme, men var meget velkommen til at starte i A.I.S. Min søn har nu på bare 2 år, lært at snakke og skrive Dansk og engelsk, og snakker Dansk næsten perfekt. Jeg vil gerne have at min søn kan fortsætte i A.I.S. fordi de tilbyder god undervisning og gode ekstra muligheder. Lærerne har god personlig kontakt med børnene og det er meget vigtigt for deres udvikling. Min søn er meget glad for sin

skole, han er vokset og har haft
en masse succesoplevelser, har
udviklet sig i den rigtige positive
retning.

Jeg støtter hermed

og håber at min søn:

kan fortsætte sin uddannelse

Til Folketinget

Jeg er nu et en dreng der går på
3. klasse på Amager Internationale skole.

Næste sommer skal mit andet barn begynde
på den samme skole.

Begge to drenge er født i Danmark og
gik på en helt almindelig dansk
børnehave på Frederiksberg og var vi meget
glad for den.

Når tiden kommer vil for at vejlede en skole
komme vi på MS fordi vi ville vejlede den skole:

- hvor vores børn kan lære nye emner med
en moderne teknologi,
- hvor de kan lære at lære
- hvor hver gang de har en problem eller
en misforståelse bliver sendt til en anden
lære for at få hjælp i stedet for en psykolog,
- hvor mine børn lære at være ansvarlig,
hjælpsomme over for de andre
- lære at respektere andre uanset farve eller
religion
- hvor de lære at en skal spise sund mad
og føle godt for at få gode karaktere
- hvor de lære at ikke røge, ikke drikke
fager stoffer eller smøger. kun for at være
stov og ^{at} passe til de andre

Jeg ønsker mig at mine børn om 10 år fra nu af bliver et godt tilbud til den danske samfund, engageret og eruet til at klare sig selv.

Jeg vil ikke ønsker at nogen skal røre ved vores ret til selv at bestemme skoleformen for vores børn eller at påføre restriktioner på vores rettigheder.

Derfor skal vi for jeres hjælp til at sige
NEJ til et ændringsforslag til fritskole

Skolen skal ikke være en standard som alle skal passe ind i, skolen skal være stedet der tilbyder vores børn bedste muligheder og den slags skole er Anager Internationale skole

Mit barn glæde sig at komme i skole hver morgen og sådant skal det være.
