COUNCIL OF THE EUROPEAN UNION

Brussels, 31 May 2005 (03.06)

(OR. fr)

9490/05

LIMITE

POLGEN 20

NOTE

from:	Presidency
to:	Permanent Representatives Committee
Subject:	European Council (16 and 17 June 2005)
	Draft conclusions

The Presidency hereby submits to Coreper a first draft of the conclusions to be adopted by the European Council at its meeting on 16 and 17 June 2005. Some parts of the text are likely to be amended in the light of forthcoming meetings of the JHA and Ecofin Councils. Moreover, it will only be possible to draft certain points of the conclusions in the light of discussions by the GAERC and recent developments.

O O

The meeting of the European Council was preceded by an exposé by the President of the European Parliament, Mr Josep Borrell, followed by an exchange of views.

[PM: state of ratifications of the draft Constitutional Treaty]

The Council addressed the following issues:

- I. Financial perspective
- II. Economic, social and environmental issues (Lisbon Strategy; sustainable development)
- III. Area of freedom, security and justice (the Hague Programme; terrorism)
- IV. Enlargement
- V. External relations
- VI. Other business

FINANCIAL PERSPECTIVE

PM: In accordance with the conclusions of the December 2004 European Council, the aim is to reach political agreement on the whole dossier. Discussions at the European Council will be on the basis of a new negotiating box, revised following the conclave held on 12 June 2005.

ECONOMIC, SOCIAL AND ENVIRONMENTAL ISSUES

Relaunching the Lisbon Strategy: a partnership for growth and jobs

In March 2005, the European Council judged that it was indispensable to relaunch the Lisbon Strategy without delay and to refocus priorities on growth and employment. To achieve this objective, it also concluded that all appropriate national and Community resources must be mobilised to a greater degree in the Strategy's three dimensions (economic, social and environmental).

DQPG I

In this context, the Council approves the Integrated Guidelines for Growth and Jobs 2005-2008, which consist of the Broad Economic Policy Guidelines and the Employment Guidelines. It welcomes this first result of the new approach defined at its meeting in March 2005, which makes it possible, on the basis of the proceedings of all the Council's configurations concerned with implementation, to coordinate macro-economic policies, micro-economic policies and employment policies around 24 integrated guidelines (see Annex I) in a dynamic and consistent fashion.

The Integrated Guidelines must now be reflected in consistent and ambitious national reform programmes to be established by the Member States by the autumn of 2005. These programmes are an indispensable instrument for reform, which is proving ever more necessary to create growth and jobs.

Sustainable development

When it relaunched the Lisbon Strategy in March 2005, the European Council reaffirmed that the Strategy was to be seen in the wider context of the sustainable development requirement that present needs should be met without compromising the ability of future generations to meet their own needs.

The European Council reiterates its attachment to sustainable development as a key principle governing all the Union's policies and activities. In this context, and on the basis of the Commission proposal, the European Council approves the "Declaration on the guiding principles for sustainable development" (see Annex II). It welcomes this new impetus and recalls that the key objectives and guiding principles set out in the declaration will serve as a basis for the renewed sustainable development strategy, to be adopted if possible before the end of 2005.

DQPG]

AREA OF FREEDOM, SECURITY AND JUSTICE

The Hague Programme

The European Council is pleased to note the adoption by the Council and Commission of the Action Plan implementing the Hague Programme on strengthening freedom, security and justice. The Plan translates the objectives of the Hague Programme into specific measures. Given the growing importance of the external dimension of the area of freedom, security and justice, it will be supplemented at the end of the year by the strategy to be adopted by the Council on a proposal from the SG/HR and the Commission.

It is of prime importance that Member States should implement the various measures adopted to carry out the Action Plan effectively and within the deadlines. The European Council therefore welcomes the examination by the Council of the measures taken by Member States to transpose and implement the Framework Decision on the European arrest warrant, and hopes that this sort of evaluation will be repeated and taken further.

The European Council welcomes the emphasis given by the Action Plan to operational cooperation between the various actors involved in the Union's internal security. In this respect, it notes the more operational character of recent work by the Police Chiefs Task Force, Europol and Eurojust and welcomes the start of activities by the Agency for the Management of Operational Cooperation at the External Borders. The European Council invites the Council to step up coordination both amongst these various actors and between them and the competent authorities of the Member States.

The European Council agrees to take stock of the implementation of the Hague Action Plan during the second half of 2006, with a view in particular to its updating following the entry into force of the Constitutional Treaty.

The European Council welcomes the adoption by the Council of the EU Drugs Action Plan (2005-2008) in the framework of the EU Drug Strategy (2005-2012).

9490/05 ket/LG/lu

Fight against terrorism

The European Council took note of the Council's report on the implementation of the Action Plan to combat terrorism. It commends the progress made on the legislative front in the area of the exchange of judicial and police information and the fight against the financing of terrorism. It also notes the guidelines defined by the Council for drawing up a strategy on radicalisation and terrorist recruitment, the finalisation of the peer review of domestic anti-terrorism arrangements and the development of analytical capacity within the Council Secretariat.

The European Council stresses the importance which it attaches to progress being made in all areas of the Action Plan to combat terrorism, particularly as regards compliance with the deadlines for the entry into force of the measures considered to be a priority for the effectiveness of the fight against terrorism.

The European Council wishes the following points to be addressed as a priority during the second half of 2005:

the negotiation of legislative proposals to strengthen police and judicial cooperation, in particular the draft Framework Decisions on the exchange of information between police authorities, on the evidence warrant, and on the retention of data on telecommunications traffic;

the drafting of the strategy and action plan on radicalisation and terrorist recruitment;

the implementation of the strategy on the financing of terrorism;

the strengthening of civil protection capabilities, particularly as regards the medical resources available to deal with a biological terrorist attack;

DQPG]

the finalisation of assistance programmes to certain priority third countries to strengthen their anti-terrorist mechanisms;

customs cooperation measures to improve the security of the supply chain.

The European Council will evaluate the progress made at its meeting in December 2005 and revise the Action Plan to combat terrorism.

ENLARGEMENT

Bulgaria and Romania

The European Council welcomes the signing of the Accession Treaty on 25 April 2005 in Luxembourg, which marks a further important step towards the accession of Bulgaria and Romania to the European Union.

Bulgaria and Romania are urged to press ahead with their preparatory efforts towards full implementation of the *acquis*, particularly in the key sectors identified in December 2004, so that the Union can welcome these two countries as new Member States on 1 January 2007. The Union will continue to monitor this process closely, in particular on the basis of the comprehensive monitoring reports to be presented by the Commission, and will pay particular attention to ensuring that the commitments made during negotiations are fully honoured within the time limits laid down.

As acceding countries, Bulgaria and Romania are now participating in the proceedings of the Council and of its bodies as active observers. This will smooth the passage from a European Union of 25 to a European Union of 27.

DQPG I

Turkey

The European Council recalls its conclusions of 16 and 17 December 2004 concerning the opening of accession negotiations with Turkey on 3 October 2005.

The European Council also recalls Turkey's commitment to sign the Protocol regarding the adaptation of the Ankara Agreement, taking account of the accession of the ten new Member States, prior to the actual start of accession negotiations. It welcomes the agreement between the Commission and Turkey on this Protocol, and looks forward to its early signing.

Croatia

PM: the Presidency may submit a text following the GAERC, in the light of latest developments.

V. EXTERNAL RELATIONS

Preparation for the September 2005 United Nations Summit

The European Council reaffirms its strong support for effective multilateralism and for the process of reform currently under way in the United Nations. It emphasises that the report which the Secretary-General presented on 21 March 2005 and [the *outcome paper presented by the President of the General Assembly on 3 June 2005*] should form the basis for the negotiation of a final document for the high-level plenary meeting in September.

The European Council considers it essential to achieve a balanced and ambitious outcome enabling the UN to be reformed so that it can respond more effectively to the multi-dimensional threats and challenges identified in the Secretary-General's report.

Against this background, the European Council emphasises its commitment to pursuing a substantial dialogue with all UN member countries with a view to preparing for the Summit.

The European Council wishes to express its gratitude to the Secretary-General for the exhaustive and coherent nature of his report and for the strategies proposed in the areas of development, security, human rights, the rule of law and democracy. It shares the Secretary-General's views on his integrated concept of collective security and supports the idea that development, security and human rights are interdependent and mutually reinforcing.

Development plays a crucial role in the preparation of the Summit. In this respect, the European Council welcomes the agreement reached by the Council concerning Official Development Assistance (ODA). In the context of reaching the commitment to attain the internationally agreed ODA target of 0,7% ODA/GNI, the European Council notes with satisfaction that its Member States are on track to achieve the 0,39% target of GNI in 2006 for ODA volumes contained in the Barcelona commitments. While reaffirming its determination to fulfil these commitments, the Council decided on a new collective European Union target of 0,56% ODA/GNI by 2010. This would result in additional annual EUR 20 billion in ODA by that time.

In this context, the European Council can reiterate that Member States which have not yet reached a level of 0,51% ODA/GNI undertake to attain that level, within their respective budget allocation processes, by 2010, while those that are already above that level undertake to continue their efforts. Member States which joined the EU after 2002, and have not reached a level of 0,17% ODA/GNI, will endeavour to increase their ODA to attain that level, within their respective budget allocation processes, by 2010, while those that are already above that level undertake to continue their efforts; Member States undertake to achieve the 0,7% ODA/GNI target by 2015, whilst those which have achieved that target commit themselves to remain above that target; Member States which joined the EU after 2002 will endeavour to increase their ODA/GNI to 0,33% by 2015.

The European Council confirms that the European Union will continue to take account of development cooperation objectives in all policies that it implements which are likely to affect developing countries, in the context of the Global Partnership for Development under Millennium Development Goal (MDG) No 8.

The EU considers the development of Africa a priority and will step up its efforts to assist African countries to reach the Millennium Development Goals. In this context, the European Council reaffirms the European Union's intention to increase its financial assistance for subsaharan Africa by collectively allocating at least 50% of the agreed increase in ODA resources to the African continent. Aid for countries which are emerging from conflict and fragile States will also be improved.

The European Council regards the Peace Building Commission, the fight against terrorism, the adoption of principles governing the use of force, non-proliferation of weapons of mass destruction and the strengthening of the United Nations' peacekeeping capabilities as its priorities in the area of security in the preparation of the Summit.

With regard more specifically to non-proliferation of weapons of mass destruction, the European Council deplores the failure of the NPT revision conference and reiterates the importance which it attaches to the consolidation of that instrument. It hopes that the issue will be addressed at the September Summit.

The European Council welcomes the prominent place given to human rights, the rule of law and democracy in the reform proposals. In this connection, the European Council reaffirms the importance which it attributes to the concept of responsibility to protect. It supports the Secretary-General's proposals to establish a Human Rights Council meeting throughout the year and reflecting the central place held by human rights in the UN system as well as the call for the strengthening of the High Commissioner's Office, inter alia through its interaction with the Security Council.

DQPG F

In the area of institutional reforms, the European Council recognises the need to reform the main UN bodies, among them the General Assembly, ECOSOC and the Security Council, with a view to enhancing the representativeness, transparency and efficiency of the system. It also supports reform efforts in the areas of the budget and administrative management, to enable the UN better to fulfil its mandate.

Sustainable development, including environmental questions and concerns, must be integrated to a greater extent in national and international development programmes and strategies. In this context, the European Council supports the Secretary-General's urgent appeal for a more integrated international environmental governance structure, based on existing institutions. In this perspective, and given the environmental challenges associated with development, the EU proposes that the high-level meeting in September 2005 initiate a process, as part of UN reform, which will lead to negotiations on the establishment of a UN agency for the environment, based on UNEP, with a revised and strengthened mandate, supported by stable, adequate and predictable financial contributions and operating on an equal footing with other UN specialised agencies.

Western Balkans

The European Council reaffirms its commitment to full implementation of the Thessaloniki agenda, which emphasises that the future of the Western Balkans lies in the European Union. It reiterates that each country's progress towards European integration depends on its efforts to comply with the Copenhagen criteria and the conditionality of the stabilisation and association process, including full cooperation with the ICTY.

DQPG I

The European Council commends the substantial efforts made by Serbia and Montenegro, and reaffirms that the European Union wishes to enter into negotiations as soon as possible with a view to concluding a stabilisation and association agreement. It reiterates its determination to act likewise with Bosnia and Herzegovina as soon as the conditions for so doing are fulfilled.

The European Council expects that cooperation with the ICTY by all countries in the region will continue and be strengthened until all those charged with crimes who continue to elude international justice have been brought before the Tribunal.

The European Council has adopted a declaration on Kosovo which is set out in Annex III.

European Neighbourhood Policy

The European Council welcomes the conclusion of a first wave of action plans, within the framework of the European Neighbourhood Policy, with Israel, Jordan, Moldova, Morocco, the Palestinian Authority, Tunisia and Ukraine, and welcomes the decision to establish similar action plans with the three Republics in the Southern Caucasus, which were included in the European Neighbourhood Policy in June 2004.

The European Council reiterates the EU's commitment to strengthening its relations with Bielorussia, inter alia by drawing up an action plan, once the authorities of that country have clearly demonstrated their intention to respect democratic values and human rights.

The European Council invites the Commission and the High Representative to report regularly on progress made.

Strategic Partnership with the Mediterranean region and the Middle East

The European Council approved the report by the Presidency, the Secretary-General/High Representative and the Commission on the implementation of the Strategic Partnership between the EU and the Mediterranean region and the Middle East. It will continue to monitor implementation of the objectives of the Strategic Partnership in accordance with the principles of action of joint ownership and partnership. The common political will to promote relations and cooperation in all areas, extending beyond commercial and economic issues, was reaffirmed in particular at the 15th GCC-EU Joint Council and Ministerial Meeting on 5 April 2005 in Manama.

Barcelona Process

The European Council welcomes the holding, in Luxembourg, of the Seventh Euro-Mediterranean Ministerial Conference, which enabled a comprehensive review of the Partnership since its initiation in 1995 to be carried out and the bases for the future of the Process to be defined. It also noted with satisfaction the progress made in the implementation of the social, cultural and human partnership of the Barcelona Process, in particular through the inauguration, in Alexandria, of the Anna Lindh Euro-Mediterranean Foundation for the Dialogue between Cultures, and the establishment in Luxembourg of the Euro-Mediterranean Non-Governmental Platform. Lastly, the European Council welcomes the holding of the first plenary session of the Euro-Mediterranean Parliamentary Assembly in Cairo, which reflects the attachment to democratic values and the principle of joint ownership intrinsic to the Barcelona Processus.

DQPG]

Iraq

The European Council reaffirms the objective of a safe, stable, unified, prosperous and democratic Iraq that upholds human rights, fully exercises its sovereignty and cooperates constructively with its neighbours and with the international community. It encourages the Iraqi authorities to pursue the full involvement of all sections of Iraqi society in the constitutional process and in promoting genuine national dialogue.

The European Council reiterates its commitment to supporting the Iraqi authorities and people, in particular by providing support for the strengthening of the criminal justice system and the rule of law through the EUJUST LEX mission, by contributing to the political, economic and social reconstruction of Iraq and by continuing efforts to deepen relations between the EU and Iraq with the aim of establishing a regular political dialogue. The European Council welcomes the adoption of the operation plan for the Integrated Rule of Law Mission for Iraq (EUJUST LEX) by the Council on 13 June 2005, enabling this EU training mission for Iraq to be officially launched.

It expresses the wish that the International Conference on Iraq, jointly organised by the European Union and the United States, to be held on 22 June 2005 in Brussels, will provide an opportunity to demonstrate the international community's support for the priorities identified by the Iraqi authorities for the transition period and to put in place a new coordination framework for aid efforts. In this connection, the European Council emphasises the importance of the Iraqi Government playing a leading role and the United Nations acting to provide advice and support.

Iran

The European Council welcomes the resumption of negotiations for a trade and cooperation agreement and for a political document with Iran following the conclusion of the Paris Agreement in November 2004. It confirms that the European Union is ready to continue looking into ways of further developing political and economic cooperation with Iran, further to the measures taken by that country to respond to other EU concerns in connection with the fight against terrorism, human rights and Iran's approach to the Middle East peace process.

The European Council would point out that the total suspension of all enrichment-related and all reprocessing activities had to be maintained if the overall process was to continue. It expresses its support for the continuation of efforts to reach an agreement on long-term arrangements, and welcomes Iran's confirmation on 25 May in Geneva of the continuing suspension of enrichment activities.

Middle East Peace Process

The European Council adopted a declaration on the Middle East Peace Process, which is set out in Annex IV.

Transatlantic Relations

The European Council welcomes the positive development of Transatlantic Relations during the first half of 2005. It notes with satisfaction the visit by US President George W. Bush to the European institutions in Brussels on 22 February 2005, and in particular the meeting of the Heads of State or of Government with the President. The annual summit between the Union and the United States on 20 June 2005 in Washington will be a further opportunity to note progress made in relations with this irreplaceable strategic partner of the Union, and in particular to deepen Transatlantic economic ties. It welcomes the launching of a strategic dialogue between the Union and the United States on East Asia. [It expresses its belief that 10 years after the New Transatlantic Agenda was adopted the time has come to consider reviewing the structures of the Transatlantic dialogue and recasting the text on which the structures are based to adapt it to new European and Transatlantic realities, notably to the more strategic content of the relationship.] It also looks forward to the forthcoming EU-Canada Summit on 19 June 2005 in Niagara-on-the-Lake when it will be possible to take note of the consolidation of the EU-Canada relationship since the Partnership Agreement was adopted at the last Summit in March 2004.

Russia

The European Council expresses satisfaction at the outcome of the 15th EU-Russia Summit, which was held on 10 May 2005, and more particularly at the adoption of the road maps for the creation of four economic spaces, which it was decided to set up at the St Petersburg Summit in May 2003 (common economic space, common space of freedom, security and justice, space of cooperation in the field of external security, and a space of research and education, including cultural aspects). This balanced set of road maps defines common objectives for EU-Russia relations, as well as the actions necessary to attain these objectives, and determines the medium-term programme for cooperation between the EU and Russia.

The consultations on human rights, launched in March 2005, are also giving fresh impetus to EU-Russia relations in terms of quality.

The European Council welcomes the signing of the border agreement between Russia and Estonia and hopes that a similar agreement can soon be signed with Latvia.

Japan

The Council reiterates its resolve to expand its partnership with Japan both in response to major international issues and on a strictly bilateral level. It is determined to strengthen the strategic dialogue on East Asia's security environment, the need for which was emphasised at the 14th EU-Japan Summit in Luxembourg on 2 May 2005. The European Council welcomes the considerable progress made with the implementation of the action plan, adopted in 2001, which reflects the deepening relations between the enlarged Union and Japan. The need for closer cooperation on environmental, energy and science and technology issues was recalled. The European Council is pleased to note the success of the EU-Japan Year of People to People Exchanges.

China

The European Council reiterates its determination to develop the strategic partnership with China by intensifying the dialogue in all areas, whether of an economic or political nature. It underlines in particular the importance it attaches to the human rights dialogue, the 19th round of which took place on 24 and 25 February in Luxembourg.

– [PM: Future adoption of the code of conduct and the "toolbox"]

Relations with Asia

The European Council reaffirms the importance it attaches to the development of relations with Asia in the light of the increasing role that the region is called upon to play in the resolution of fundamental issues arising in the international community. In this context, it welcomes the outcome of the EU-ASEAN and ASEM ministerials which took place during the first half of the year.

The European Council encourages further work on formulating the action plan with India, which is due to be approved at the sixth summit to be held in the second half of 2005 in New Delhi.

Relations with Africa

The European Council welcomes the boosting of peace-keeping and security maintenance capabilities in Africa and the fact that the relevant structures have been made operational. The EU contributed to security sector reform in the Democratic Republic of the Congo by launching the EU police mission in April 2005 in Kinshasa (EUPOL Kinshasa), the aim of which is to ensure that the future Congolese integrated police will act in accordance with best international police practice. The EU also contributed to transition and stabilisation in the DRC by launching a mission to provide advice and assistance for security sector reform (EUSEC RD Congo) on 8 June 2005. Such missions are tangible examples of the action plan in practice providing support through the ESDP for peace and security in Africa.

The European Council is anxious to point out in particular that the European Union, and its Member States, will pursue their aid efforts, notably in Sudan, in the Great Lakes region, in West Africa and in Somalia. It expresses its full support for the continental initiatives such as NEPAD or regional initiatives such as the process following on from the International Conference on the Great Lakes.

DQPG [

The EU will pursue its commitment to restoring peace and development in Sudan, in particular through its support for AMIS. For example, at the AMIS donor conference on 26 May 2005 in Addis Ababa the EU tabled a comprehensive and substantial offer involving support for planning, logistics, equipment, strategic and tactical airlift, development of AU's observation capabilities and training, in keeping with the requests made by the African Union and in coordination with the other international community players, in particular the United Nations, NATO, the United States and Canada. The European Council continues to be deeply concerned at the further atrocities committed against the civil population in Darfur. It urges all the Sudanese parties to cooperate fully with the United Nations and the International Criminal Court in implementing fully and completely the Global Peace Agreement and in launching an inclusive democratisation process.

In view of the close link between peace and security, on the one hand, and the development of the African countries, on the other, the European Council reaffirms the EU's determination to continue supporting the development of the African continent in compliance with the principles of equality and African ownership. In this context, the high-level plenary meeting will be crucial. The European Council also commends the priority treatment given to Africa in the G8 proceedings and has taken note of the contribution by the "Commission for Africa".

In this context the European Council recalls the importance it attaches to relations between the European Union and Africa and welcomes the Commission's intention to submit a fresh communication on the subject. It invites the Council to study the communication in the light of the UN Summit, in preparation for the European Council in December 2005.

Relations with Latin America

The European Council notes with satisfaction the outcome of the 12th ministerial meeting between the Union and the Rio Group, and of the ministerial meetings with the various subregional organisations of Central and South America, which took place on 26 and 27 May 2005 in Luxembourg.

ESDP

The European Council approved the Presidency report on the ESDP, which comprises the mandate for the incoming Presidency.

As regards military capabilities, conceptual work on battlegroups has continued with success. At the battlegroup coordination conference on 11 May it was established that Member States' commitments will enable the desired goal for the initial operating capability period 2005 and 2006 to be achieved. The European Council notes with satisfaction the progress made with a view to securing the necessary contributions for the full operating capability period in 2007, 2008.

The European Council welcomes the measures taken to enable the decision-making and planning process to be speeded up for EU rapid response operations.

The development of European civilian capabilities to achieve the Civilian Headline Goal 2008 has been actively pursued in accordance with the deadlines set by the December 2004 European Council. It has thus been possible to prepare the strategic planning assumptions and illustrative scenarios concerning stabilisation and reconstruction, conflict prevention, targeted strengthening of institutions and civilian support for humanitarian operations. Work on the rapid deployment of civilian crisis management capabilities has also continued.

DQPG]

The European Council notes that the development of ESDP instruments is part of a consistent approach. The civil-military cell, the establishment of which was adopted at the European Council in December 2003, has begun its proceedings on the basis of an ambitious programme of activities.

The European Defence Agency is now fully engaged in implementing its first annual work programme. Flagship projects have been put forward in the areas of military capabilities, armaments, industry and the market, and research and technology, the four pillars of the EDA's work.

The European Council notes with satisfaction that the concept of EU training in the field of the ESDP has begun to be implemented with success. The conditions necessary for establishing the European Security and Defence College and for defining its operating procedures have been met.

The European Council reaffirms its interest in strengthening its partnerships and cooperation with third States and international bodies. The EU and NATO have pursued their cooperation within a strategic partnership on crisis management, more particularly in the implementation of operation ALTHEA, led by the EU in Bosnia and Herzegovina.

Cooperation with the United Nations on crisis management has resulted in particular in close collaboration between EUPOL Kinshasa and MONUC.

The European Council also notes with satisfaction the progress made in strengthening the partnership on EU-led crisis management with Ukraine and Canada, in the context of the common space of external security with Russia and in the context of Euromed with the Mediterranean partners.

VI. <u>OTHER BUSINESS</u>

Fight against HIV/AIDS and other transmissible diseases

The European Council notes with deep concern the increase in the incidence of HIV/AIDS in the Member States, in neighbouring countries and world-wide, and underlines the need for a coordinated and integrated Community approach in order to combat this scourge.

The European Council recalls the importance of active cooperation between Member States and the Commission in order to improve the public's general knowledge and to raise its awareness as regards preventing HIV contamination, promote safer and more responsible sexual behaviour and practices, ensure universal access to treatment and maintain a climate of non-discrimination in society. The Member States and the Commission are invited to continue their exchange at Community level of best practices and experiences, and to promote investment in appropriate research and development activities.

In the area of combating HIV/AIDS and other transmissible diseases, in particular in the context of Millennium Development Goal (MDG) No 6, the European Council commends the Council's approval of the European Programme for Action to Confront HIV/AIDS, Malaria and Tuberculosis through External Action. This programme is the basis for renewed, concerted and energetic action by the EU in all partner countries and at world level through common actions designed in particular to promote an integrated approach in the fight against the three diseases, to strengthen cooperation in the implementation of the Cairo action programme/ICPD + 10, to enhance the capabilities of the partner countries, increase the resources and means available, and support research into and development of new instruments for preventing and treating the three diseases.

The European Council calls on the Member States and the Commission to promote and continue dialogue and cooperation with countries at national, regional and world level, and with international organisations such as UNAIDS, in the framework of health policy and development policy, in order to achieve further progress in the fight against the propagation of HIV/AIDS.

European external action service

The European Council took note of the joint report by the GS/HR and the Commission. It calls on them, together with the Member States, to continue the preparatory work and to keep the European Parliament informed.

– "Green diplomacy" initiative

The European Council also took note of the report on the results obtained by the "Green diplomacy" initiative which it launched in June 2003. In this connection, it welcomes the ongoing efforts to achieve better integration of environmental and sustainable development matters in external relations.

ANNEX I

INTEGRATED GUIDELINES FOR GROWTH AND JOBS 2005-2008

- 1. Guarantee the economic stability for sustainable growth
- 2. Safeguard economic and fiscal sustainability as the basis for more jobs
- 3. Promote an efficient allocation of resources, which is geared to growth and jobs
- 4. Ensure that the development of salaries contributes to macroeconomic stability and growth
- 5. Strengthen the consistency of macroeconomic, structural and employment policies
- 6. Contribute to the dynamism and smooth operation of EMU
- 7. Increase and improve investments in research and development, in particular in the private sector8. Facilitate all forms of innovation
- 9. Facilitate the spread and effective use of ICTs and build a fully inclusive information society
- 10. Strengthen the competitive advantages of its industrial base
- 11. Encourage the sustainable use of resources and strengthen the synergies between environmental protection and growth
- 12. Extend and deepen the internal market
- 13. Ensure open and competitive markets inside and outside Europe, reap the rewards of globalisation
- 14. Create a more competitive business environment and encourage private initiative by improving regulations
- 15. Promote a more entrepreneurial culture and create a supportive environment for SMEs
- 16. Expand, improve and connect European infrastructures and complete priority cross-border projects

ANNEX I DQPG EN

- 17. Implement employment policies aiming at achieving full employment, improving quality and productivity at work, and strengthening social and territorial cohesion
- 18. Promote a lifecycle approach to work
- 19. Ensure inclusive labour markets, enhance work attractiveness, and make work pay for job-seekers, including disadvantaged people and the inactive
- 20. Improve matching of labour market needs
- 21. Promote flexibility combined with employment security and reduce labour market segmentation, having due regard to the role of social partners
- 22. Ensure employment-friendly labour costs developments and wage-setting mechanisms
- 23. Expand and improve investment in human capital
- 24. Adapt education and training systems in response to new skill requirements
