INTRODUCTION

[\(Klik her for Indledning på dansk\)](#)

As published in January 2005, the list contains 622 missing books (volumes) printed 1501-1700. The list will be completed by May 2005, at the latest, covering books printed before 1950. The list is arranged chronologically by date of publication. It starts with 1501, because no item from the library's Collection of Incunables has been found to be missing. Please note that the list does not contain 76 books known to have been sold at international auctions in 1998-2003.

The search facility included in all current web browsers makes the list readily *searchable*. The list can also be printed and downloaded.

Books marked "DA" belong to the Collection of Danish Books (25 vols.), all others belong to the Collection of Foreign Books (597 vols.). Books marked with an asterisk (*) – 188 vols. – are known to have been missing before the 1970s.

The list is based on shelflists dating from c. 1820 and onward, but every record has, as far as possible, been verified in other library catalogues, and the bibliographical information has been expanded and brought up to date. Bibliographical data has been culled from the *Hand Press Book database* of CERL (HPB), via the *Karlsruher Virtueller Katalog* (KVK), and from bibliographies and other printed sources, e.g. the VD 16 (*Verzeichnis der im deutschen Sprachraum erschienenen Drucke des 16. Jahrhunderts*). When the shelflist of the Royal Library – in the list called 'KB catalogue' – includes copy-specific information (e.g. handwritten notes, famous provenance, binding features, etc.), this information has of course also been included in the list.

In most cases, the records on this list are fuller than those of the old shelflist. When the

wording of the shelflist differs substantially from the information given here, the wording of the shelflist is also displayed.

In general, authors' names are given in a standard form, sometimes followed by an alternative form in brackets. The standard form may be the same as that presumably found in the book. When this is not the case, the alternative form will be the one apparently given in the book. However, there will necessarily remain a number of deviations from these strict principles, particularly since the books in question have not been at hand. The primary objective, therefore, has been to suggest alternative, *searchable* forms wherever it seemed reasonable.

Places of publication have as a rule been given in their English forms, sometimes followed by the form supposedly found in the book. Information about illustrations is within square brackets when it has been taken from other sources than the Royal Library shelflist. The same goes for the number of pages or leaves. No distinction is made between unpaginated and paginated pages and unfoliated and foliated leaves. Names of printers and publishers have been added from other catalogues without any indication of this. "Octavo format" also covers smaller formats.

INDLEDNING

Som offentliggjort i januar 2005 består nærværende liste af 622 efterlyste bøger (bind) trykt 1501-1700. Listen vil senest foreligge afsluttet i maj 2005, omfattende bøger trykt før 1950. Listen er opstillet kronologisk efter trykkeår. Den indledes med året 1501, fordi der ikke er registreret mangler i Inkunabelsamlings (tryk 1454-1500). Bemærk, at 76 bøger, som vides solgt på internationale auktioner 1998-2003, ikke er inkluderet i nærværende liste.

Listen er *søgbar* gennem alle gængse browseres søgefacilitet ("Søg" eller "Find"). Listen kan også udskrives på printer og hentes ned på egen maskine.

Bøger mærket "DA" tilhører de Danske Hovedsamlinger (25 bind), alle andre bøger på listen tilhører Ældre Samling (udenlandske bøger) (597 bind). Bøger mærket med en stjerne (*) – 188 bind – vides at have manglet i samlingerne før 1970erne.

Listen bygger på hyldelister (de systematiske protokoller), der stammer fra 1820erne eller senere, men hver eneste indførsel er såvidt muligt blevet verificeret i andre

bibliotekskataloger, og de bibliografiske oplysninger er blevet udvidet og ført à jour. Bibliografiske data er blevet indsamlet fra CERL's *Hand Press Book database* (HPB), via *Karlsruher Virtueller Katalog* (KVK) og fra bibliografier og andre trykte kilder, f.eks. VD 16 (*Verzeichnis der im deutschen Sprachraum erschienenen Drucke des 16. Jahrhunderts*). I de tilfælde, hvor Det Kongelige Biblioteks hyldeliste/katalog (nedenfor kaldt "KB catalogue") meddeler oplysninger, der er særegne for bibliotekets eksemplarer (f.eks. omfattende håndskrevne noter, berømt proveniens, bemærkelsesværdig indbinding, etc.) er disse oplysninger naturligvis inkluderet på listen.

I de fleste tilfælde er indførslerne på denne liste således mere udførlige end i de gamle hyldelister. Når hyldelistens ordlyd afviger markant fra den her gengivne indførsel, er hyldelistens ordlyd også gengivet.

Forfatternavne meddeles normalt i en moderne standardiseret form, ofte fulgt af en alternativ form i parentes. Den standardiserede form kan være den samme som den, der antages anvendt i bogen selv. Når dette ikke er tilfældet, vil den alternative form være den, som antages anvendt i bogen. Der vil dog altid forekomme afvigelser fra sådanne strenge principper, specielt når bøgerne – som her – jo ikke har været ved hånden. Målet har først og fremmest været at tilbyde alternative søgbare former overalt, hvor det kunne forekomme nyttigt.

Som hovedregel er trykkested angivet ved byens engelske navn, ofte med tilføjelse af den form, der antoges anvendt i bogen. Oplysninger om illustrationer står i kantede parenteser, når de er hentet fra andre kilder end bibliotekets hyldeliste. Det samme gælder antal sider eller blade. Der er ikke skelnet mellem paginerede og upaginerede sider, hhv. folierede og ufolierede blade. Navne på trykkere og forlæggere er uden videre blevet tilføjet fra andre kataloger og bibliografier. "Oktav format" dækker også over mindre formater.

Alle oplysninger om fundne bøger fra Det Kongelige Bibliotek bedes rettes til biblioteket:
