23rd of February 2006

Venue: DanChurchAid, Nørregade 13, Copenhagen

You are hereby invited to participate in the halfday DanChurchAid conference entitled "CSR, poverty and hunger in developing countries".

The role of foreign investments in relation to development and the fight against poverty has been emphasised at numerous international meetings during the last years. The conference highlights the relation between CSR, poverty and hunger, and brings new experiences and recommendations into the CSR debate.
