

Distinguished Danish Government,

My name is Fengjun Hao, I am a permanent resident in Australia, granted protection visa on 28th July 2005.

I worked at the National Security Bureau (formerly *610 Office) of the Tianjin Municipal Police Bureau from October 2000 to February 2005. In 2002 when I helped a fellow policeman who was in charge of collecting intelligence information from Europe I received a copy of information on a Falun Gong practitioner in Copenhagen as well as his photo. The name of the practitioner was Xuezhi Zhu and the photo showed him at the Falun Gong activity held in Copenhagen. Around the same year, the 610 Office of the Tianjin Municipal Police Bureau in collaboration with the Tianjin Industrial and Commerce Bureau sealed up and confiscated all Zhu Xuezhi's properties in Tianjin. In 2003 I met with the policeman who was in charge of collecting information from Europe again and got copies of Zhu Xuezhi and his wife's passports and the photocopies of their application for refugee status.

610 Office is a Gestapo like agency specifically created to persecute Falun Gong, with absolute power over each level of administration in the Party and all other political and judiciary systems.

I had personally observed the treatment of the Falun Gong. As a former police officer from the 610 Office of the Chinese Communist Party I know very well the dangerous situation faced by Xuezhi Zhu and his family. If their application for refugee status were rejected they would face imminent deportation. Then they would be definitely put into jail and might be tortured both physically and mentally. I hereby thank the reasonable and correct decisions made by this free, democratic and justice Danish Government.

Thank you!

Fengjun Hao
