Regarding: A meeting with the Integration Affairs Committee

1. We would like to discuss the general asylum politics in Denmark.
2. We would like to tell the committee about the impact of the Danish asylum politics on life in the center and which problems it makes for the people living at the center.
3. We would like to talk about the problem of the rules that have been implemented by the danish parliament in 2003. The problem is also that many of the rules are not followed.
4. We also would like to discuss the rules made by the Danish parliament in 2006.
5. We would like to ask the committee how the 37 million kroner that the Danish parliament granted to the asylum centers to make life better for us and especially the children will actually help us with our problems.
6. We have some suggestions and ideas to the committee on how we could make life easier for the asylum seekers while they wait for their final answer.
7. We would like to discuss our status.

Sincerely
