

# THE EUROPEAN ENERGY CHALLENGE

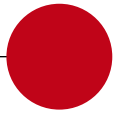

Maintaining the competitiveness of  
European companies

## EUROPEAN ENERGY CONFERENCE IN COPENHAGEN

Radisson SAS Scandinavia Hotel

19. - 20. April 2007

# THE EUROPEAN ENERGY CHALLENGE

Maintaining the competitiveness of European companies

## EUROPEAN ENERGY CONFERENCE

**19. - 20. April in Copenhagen at the Radisson SAS Scandinavia Hotel**

Organisers: Norenergi ApS & The Danish Association of Industrial Energy Endusers FSE  
with the support of IFIEC Europe - International Federation of Industrial Energy Endusers

### Who should attend?

The Conference, conducted in English, has been designed to attract participants from Danish as well as other European (mostly Northern Europe) organisations and energy professionals. Typical participants will come from major industrial energy consumers, authorities, regulators, major energy players (generators, grid companies, traders etc) and consultants.

The conference will address the very latest updated news and focus on the most likely immediate and longer term developments and consequences – not least for European industrial competitiveness.

### Key topics and themes at the Copenhagen European Energy conference are

- European energy policy, the developments after the European Energy Summit
- The market situation and competition – interaction between authorities and the market
- The integration of the market areas, the future role of the power exchanges
- The supply situation – the energy mix, what is to be expected?
- Climate strategies – EU ETS, how is it working?, the likely future developments

## THURSDAY 19 APRIL

### Conference opening – the political aspects
