“The Danish Parliament underlines that the purpose of the EPAs with the EU is to promote development and poverty reduction through the integration of ACP countries into world trade. The Danish Government is encouraged to work for:

- EU lives up to its commitment to increase ODA, including trade related development assistance to the ACP countries in relation to the partnership agreements,
- EU only demand's stricter rules for services, intellectual property rights, competition, investments and public procurement if it serves the development interests of the ACP countries and their wishes,
- ACP countries efficiently can protect themselves against all dumping including of EU agricultural products,
- all ACP partnership countries will be offered market access to the EU in line with EBA without transition periods,
- promote South-South trade and allow that reduction of duties on EU imports will be reduced more slowly than among ACP countries in their regional configurations,
- EU softens its rules of origin and work for the same approach in OECD.”
