

**THE PARLIAMENT OF THE CZECH REPUBLIC**  
**SENATE**

7<sup>th</sup> term

**562<sup>nd</sup> RESOLUTION**  
**OF THE SENATE**

delivered on the 23<sup>rd</sup> meeting held on 22<sup>nd</sup> June 2010

**on Proposal for a Directive of the European Parliament and of the Council  
on the conditions of entry and residence of third-country nationals for the  
purposes of seasonal employment**

The Senate

- I.**
1. **Is of the opinion**  
that the conditions of entry and residence of the third country nationals for the purposes of seasonal employment can be adequately regulated on the national level, while legal regulation on the EU level is neither necessary nor does it present an added value when compared to the current state, with regard to its extent and impacts;
  2. **Has thus come to the conclusion**  
that the submitted proposal is not in compliance with the principle of subsidiarity as defined in Article 5 Paragraph 3 of the Treaty on European Union;
  3. **Delivers**  
a **reasoned opinion** on the proposal of the directive in compliance with the Article 6 of the Protocol No. 2 of the Lisbon Treaty;
- II.**
1. **Stresses**  
the fact that the need for regulation of seasonal work differs among individual Member States with regard to different structures of their labour markets;
  2. **Is of the opinion**  
that the proposal does not anticipate any effective mechanisms that could prevent third country nationals from applying for permit in another Member State once

their original permit in the first Member State runs out, in order to ensure a residence on EU territory for a period longer than 6 months in a given year;

**3. Considers it problematic**

to set up rules on circular migration aimed at particular sectors, such as agriculture or tourism, as Commission does in the proposal, with regard to the fact that the character of this work may not reflect the needs of seasonal migration in the states where seasonal work is being used in different sectors, for example building industry;

**4. Points out**

that with the current wording of the proposal it cannot be precluded that in the area of social welfare the guarantees of seasonal workers' rights as stated in Article 16 Paragraph 2 of the proposal will lead to higher level of protection of seasonal workers from third countries than of the citizens from the new Member States to which the transitional periods regarding access to labour markets are still being applied;

**5. States**

that neither the proposal for the directive nor other available analyses make it currently possible to precisely identify the financial impacts of the guarantees that should be granted to seasonal workers in the area of social welfare;

**6. Reminds**

that the proposed regulation could lead to new administrative costs related to the setting up of a system of processing of the applications, including the obligation to designate or constitute an authority to receive the applications and issue permits (Article 9 Paragraph 2 of the proposal) or to oversight of accommodation for seasonal workers as stated in the Article 14 of the proposal;

**III. Authorises**

the President of the Senate to forward this resolution to the European Parliament, the Council and the Commission and to the Presidents of parliamentary chambers of the EU Member States.
