The European Affairs Committee of the Danish Folketing has asked the 5 relevant sectoral committees of the Folketing to take part in answering the questionnaire attached to the invitation. In order to support this work the Folketing asked the Danish Agency for International Education to contribute in drawing up an answer to the questionnaire.

The contribution from the Danish Agency for International Education has been debated in The Labour Market Committee, The Trade and Industry Committee, The Health Committee, The Education Committee and The Science and Technology Committee. All committees decided to support the answers proposed by the Agency and added an extra comment. The European Affairs Committee decided to support the joint answer from the sectoral committees to the questionnaire.

Please find attached the Danish answer to the questionnaire.

It is still unclear if any members of the Folketing will be able to attend the meeting on 26 October. However, I hope the meeting will be fruitful and I would be happy to receive any kind of conclusions from the meeting.

Yours sincerely,
