Dear Sir,

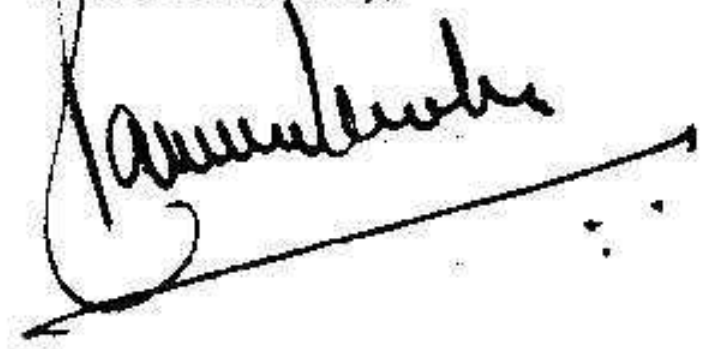

I refer to your letter dated 08/10/10.

I wish to put on record that all statements made by me in my interview with Mr. Claus Blok Thomsen was in respect of pesticide poisoning cases in the context of plantations in general and not attributable to United Plantations specifically. Any allegation that I had attributed the poisoning cases to United Plantations is erroneous and reported out of context.

I have seen patients from United Plantations but they are not related to chemical poisoning but general ailments.

I hope this clears the air with regards to the controversy at hand.

Yours faithfully,
