11:00 SESSION I

Implementation of UN Global Compact Resources and Learnings

Many Global Compact groups have developed guidance, best practices or norms to fill gaps and help advance implementation. Following a brief presentation by representatives from issue working groups, specialized platforms, and Local Networks, this session will focus on how participants apply learnings – for example by piloting new guidance – and ways to increase the value of engaging in Global Compact groups.

The Role of Global Compact Working Groups and Special Initiatives

SESSION I CONTINUED

Roundtable Discussion

Question 1: Over the years, Global Compact working groups and issue platforms have developed a wide range of tools and resources to help companies implement the Global Compact principles and achieve their corporate sustainability goals. What are the main lessons learned in terms of how to work with your colleagues to translate these tools and resources into concrete practices within your company?

Question 2: What steps can you take as a company focal point, civil society representative or Local Network representative to make sure that more companies in the Global Compact benefit from the resources that are developed and lessons learned? What resources emerging from Global Compact working groups and special initiatives have proven particularly successful in spreading best practices to Global Compact participants?

13:20 SPECIAL ADDRESS

Towards Rio +20, *Ms. Karen Ellemann, Minister for the Environment, Government of Denmark*

13:30 LUNCH

15:00 SESSION II

Organizing for the Integration of Corporate Sustainability

The session will examine different models for how companies integrate the Global Compact principles and sustainability into their organizations, including best practices for how to deal with the synergies and trade-offs among issue areas.

Integrating the Blueprint for Corporate Sustainability, *Mr. Georg Kell, Executive Director, UN Global Compact*

Organizational Integration, *Mr. Weijun XIE, Executive Director, General Office, China Minmetals Corporation*

Issue Integration, *Mr. Claus Stig Pedersen, Head of Sustainability, Novozymes*

Supply Chain, *Ms. Charlotte Wolff, ArcelorMittal*

Roundtable Discussion

Question 1: In your experience, what are effective ways to organize internally to ensure that the Global Compact principles are integrated into the company and its operations?

Question 2: How and to what extent does your organization leverage synergies between and among issues areas (e.g. water and human rights) and how does your company deal with potential trade-offs between conflicting issue-specific objectives?

16:45 COFFEE BREAK

17:15 CLOSING PLENARY

Looking Ahead: Business Contribution to Sustainable Development – the UN Private Sector Forum 2011 on Access to Sustainable Energy and Rio +20

This closing session will outline how the Global Compact plans to bring the voice of business to major upcoming UN events, notably the 4th UN Private Sector Forum in September 2011 and the UN Conference on Sustainable Development – Rio +20 in June 2012. Rio+20 aims to set the sustainability agenda for the next critical decades, and the Global Compact is well-positioned to put forward solutions by business – individually and in partnership with other actors – on issues such as poverty, climate, food, water and energy.

Business and Access to Sustainable Energy, *Ms. Sabina Ratti, Sustainability Vice President, Eni SpA*

Business and Sustainable Development, *Mr. Lars Tofft, President, Ericsson Denmark A/S*
