Dear Sirs,

As part of the parliamentary dimension of the Polish Presidency in the EU Council, the Sejm of the Republic of Poland is organising a conference entitled "Europe of the Carpathians", which will take place on 7-8 September 2011 during the 21st Economic Forum in Krynica. The "Europe of the Carpathians" conference is going to serve as a platform for dialogue for all those interested in the development of mountain areas and regional cooperation, both within the EU and with its closest neighbours. For this reason I would like to ask you to pass on the invitation to participate in the Krynica conference to the Chairpersons and members of the parliamentary committees responsible for foreign affairs, European Union, regional development and environment protection matters, and to any other interested parliamentarians.

The aim of the conference is to exchange experience between European states with regard to cross-border and international cooperation in mountain areas and build partner relations in order to strengthen the position of the Carpathian area, as well as securing proper recognition of this process in EU policy and financial decisions. We would like to present the Carpathians as one of Europe's great regions; a land of rich culture and traditions, unique natural heritage and many common development problems.
