# Be prepared for doing Business in Brazil

- Highly complex environment
- The World Bank ranks Brazil 127 out of 183 countries in 'ease of doing business'
- Rules and legislations are many; high barriers and hidden costs
- Protectionism and high taxes
- Historical lack of a clear regulation that encourages private investment

## Infrastructure business in Brazil

- Great opportunities
- Bottlenecks in the highway and rail access to ports
- Ports are underdeveloped by global standards
- Reorganization of the ports' legal and regulatory structure
- Public investments of some USD 25 billion

## Three simple reasons for investing in Santos

- Largest port in South America
- 25% of Brazil's trade goes through Santos
- Highly congested and lacks capacity

## Facts about the Santos Project

- Remediation USD 150 million; excess of 1 million ton of soil
- Area 490,000 m<sup>2</sup>
- Quay length 1,108 meters
- 8 ship-to-shore cranes; expansion to 12
- Static capacity 34,600 / 20' containers
