Emne: Forward of an email titled "Shame on Denmark"

Honorable Rene Christensen  
Chairman, Food, Agriculture and Fisheries Committee  
Danish Parliament  
Mr. Christensen,

If even a shred of this article is true (and <http://www.snopes.com/> verifies it is "Probably True"), I implore you as, an Animal rights representative to the Danish parliament, to insist on legislation that will put an end to this barbaric practice. It is certainly not the kind of activity one associates with a civilized nation such as Denmark. Surely the young men of the Faroe Islands can find a much more productive manner in which to show their coming of age !! Your actions are imperative to stop this atrocity.

Sincerely,  
Gerald Bolton
