

SPØRGSMÅL NR. S 1067

§ 20-SPØRGSMÅL TIL SKRIFTLIG BESVARELSE

FOLKETINGET

Til: Udenrigsministeren
Dato: 6. februar 2013
Stillet af: Søren Espersen (DF)

Hvilke skridt agter regeringen at tage for at forhindre, at Danmark – via sin betragtelige økonomiske bistand til Det Palæstinensiske Selvstyre »Ma'an News Agency« – reelt finansierer opfordringer til jødehad og finansierer systematisk hjernevask af arabiske drenge og piger til at dræbe jøder, og vil udenrigsministeren i øvrigt kommentere citaterne i begrundelsen for spørgsmålet?

Begrundelse

Spørgeren skal i det følgende – i den engelske udgave – citere en række af de udsagn, der for nylig er fremkommet i Ma'an News Agency: »The Jews feel inferior to the nations and societies in which they live, because of the hostility and evil rising in their hearts towards others and for their plots and schemes against the nations who know with certainty that the Jews are the root of conflict in the world, wherever they reside.« »Jews are outcasts in every corner of the earth, and not one nation in the world respects them... but Allah's curse upon them and his fury at them cause them to continue with their transgression.« »Allah has stricken fear in their hearts and decreed humiliation and degradation upon them until Judgment Day« »Jews are the root of conflict in the world, cursed by Allah, and outcasts in every corner of the earth.« »Jews are hostile, evil, and brutal, plotting and scheming, and Allah has decreed that Jews are destined to be humiliated.« »Jews are sons of death, too cowardly to confront an enemy face to face and seized by fear and trembling. – this is because Allah has stricken fear in their hearts and decreed humiliation and degradation upon them until Judgment Day.« »Jews cause strife, and scheme everywhere they settle, and therefore they have been outcasts in every corner of the earth, and not one nation in the world respects them. As a result, the lives of Jews have always been war and fighting.« »Because of the hostility and evil rising in their hearts towards others and for their plots and schemes against the nations, the Jews have been defeated through the ages and feel inferior to the nations and societies in which they live. These nations know with certainty that the Jews are the root of conflict in the world, wherever they reside.«
