1 July 2014

Dear Mogens Lykketoft,
Dear President of the Parliament,

As Board of Presidents of EUFORES, we have the honour of inviting you and/or a delegation of your house to participate in the

**14th Inter-Parliamentary Meeting on
Renewable Energy Sources and Energy Efficiency (IPM14)**

**Meeting of the
Core Members of Parliament
from the European Parliament and
EU28 national Parliaments**

10 & 11 October 2014, Portuguese Parliament, Lisbon

IPM14 is organised in association with the Portuguese Parliament and will take place in Lisbon in the Portuguese Parliament. At this conference, EUFORES aims at **gathering the 100 most active parliamentarians in the field of renewable energy and energy efficiency from national parliaments and the European Parliament**. The conference will be the perfect opportunity to exchange knowledge and to engage in discussions with like-minded colleagues from other Member States and the European Parliament about a sustainable energy future for Europe. **We would therefore like to ask you to initiate an official delegation of your house.**

The conference will also be an occasion to meet other participants, such as officials of national governments, the European Commission and selected representatives from industry and the scientific sector. The one-and-a-half-day conference will be accompanied by a Gala Dinner on Friday and a Saturday afternoon side visit to the city of Sintra.

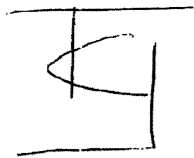

The first half a day of this conference will be dedicated to energy efficiency. The second half of the Friday programme and Saturday morning session will focus on renewable energy. Please find the programme enclosed, as well as information on our recommended hotels.

We are counting on your experience and input regarding your country and region, since it will be of high importance to the discussions at this high-level parliamentary meeting.

Please find enclosed the registration form. IPM14 will be held in English, with Portuguese and Spanish interpretation. Upon request we may arrange simultaneous interpretation in other EU languages for delegations of at least 5 participants. For more information please visit www.eufores.org.

We are looking forward to seeing you or your delegation in Lisbon.

Yours sincerely,

Claude Turmes

Who is EUFORES?

- European Parliamentarians for a Sustainable Energy Future -

EUFORES was established in 1995 and is the cross-party parliamentary network with members from the European parliament and the EU-28 national Parliaments, aiming at promoting renewable energy sources and energy efficiency in Europe. A key-activity of EUFORES is the exchange of information between European and national Parliamentarians, as well as Parliamentarians and relevant stakeholders.

EUFORES has developed an intense institutional network at EU and national level, and has become one of the driving forces in the renewable energy sector. As part of its efforts, it organises regularly Inter-Parliamentary Meetings on Renewable Energy and Energy Efficiency. It also advises on policy, disseminates up to date information to its members and promotes beneficial legislation (i.e. by various projects) in the fields of renewable energy and energy efficiency.

European Forum for Renewable Energy Sources

...the European cross-party parliamentary network

**“European Parliamentarians
for a Sustainable Energy Future”**

www.eufores.org

From a challenging situation to political action within Europe

Challenges of today's energy system

- EU's energy import dependency and insecurity of energy supply
- High energy prices and growing energy poverty
- Climate change
- Scarce energy resources and geostrategic tensions
- Difficult economic environment

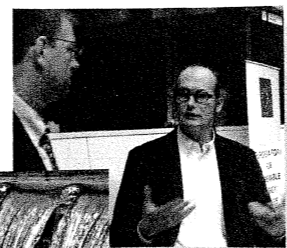

What needs to be done?

- Promote renewable energy and energy efficiency
- Develop effective framework conditions and markets
- Implement intelligent energy policies and instruments in the EU Member States
- Facilitate exchange of experience
- Create political actions among Europe's Parliamentarians

Who is EUFORES and what do we want?

EUFORES...

- ...is a European cross-party parliamentary network with Members of the European Parliament and the EU national Parliaments.
- ...integrates a wide range of non-parliamentary actors as supporting members.
- ...was founded in 1995 as an independent, non-profit organisation and is a leading promoter of renewable energy and energy efficiency.
- ...supports the development of both fields in the European Union and the transformation of good practice into coherent policies.
- ...promotes the systemic integration of renewable energy and energy efficiency as key solutions for a sustainable development.
- ...organises the exchange of information between European, national and regional Parliamentarians, as well as between Parliamentarians and relevant stakeholders.

EUFORES is the cross-party parliamentary network for renewable energy and energy efficiency in Europe

What does EUFORES do?

EUFORES...

...connects the leading members of the European Parliament, EU national and regional parliaments working on sustainable energy issues.

...integrates key actors from science, industry and civil society into its network to create new channels of communication.

...organises a variety of events and platforms (Inter-Parliamentary Meetings, national parliamentary workshops, MEP roundtables with EU Commissioners and EU Council Presidencies, EP dinners, Advisory Committee meetings etc.).

...provides access to political and scientific advice and disseminates up-to-date information.

...facilitates the exchange of views on EU and national legislation to support legislative initiatives and proposals.

...manages a diversity of projects supporting the implementation of EU legislation in the Member States.

Why join EUFORES?

- To be part of the European parliamentary network and its political action
- To support effective policies for renewable energy and energy efficiency
- To get involved in the exchange of experience among policy makers and key-actors in the field
- To include your practical experience and visions about renewable energy and energy efficiency for successful policy frameworks
- To support the management of EUFORES and strengthen its work force in the Brussels Secretariat
- To be part of a great vision, to support its transformation into policy and to contribute to a more sustainable energy future
- To make the EU energy transition real
