

Til Folketingets Sundhedsudvalg.

FN har netop udsendt varsel vedr. T. Gondii som det fremgår nedenfor.

Med venlig hilsen  
Bo Hembæk Svensson

Nedenstående bedes venligst journaliseret på ovenstående sagsnummer, samt bedes bemærket i såvel Stats- som Justitsministerium.

Det skal anbefales at dette forelægges Ministeren hurtigst muligt.

*Som det fremgår heraf har FN netop udsendt officiel advarsel vedr. parasitter og T. Gondii.*

Dette er den største sundhedsmæssige udfordring for os nogensinde - og indgår/kan forstås i en større og sammenhængende kontekst.

Denne sag er en ministersag - og især en Statsminister sag.

Med venlig hilsen  
Bo Hembæk Svensson et al.

Subject: UN (FAO) puts Toxoplasma Gondii on priority list as of July 1st.  
To: Pia Brodersen <[pbr@sum.dk](mailto:pbr@sum.dk)>, [po@sum.dk](mailto:po@sum.dk), [sli@sum.dk](mailto:sli@sum.dk)  
Cc: [mkt@novonordisk.com](mailto:mkt@novonordisk.com), [lrs@novonordisk.com](mailto:lrs@novonordisk.com), [investor@lundbeck.com](mailto:investor@lundbeck.com), [denmark@lilly.com](mailto:denmark@lilly.com), [hvn@ssi.dk](mailto:hvn@ssi.dk)

For information.

UN (Food and Agriculture Organization) has just published a priority list of parasites "**of greatest global concern**".

Within the last three month US CDC and now UN has alerted concerning T. Gondii. In the announcement from UN is says: "*But considering the problems they cause, these parasites do not get the attention they deserve. We hope that by releasing a top ten ranking we can **increase***

*awareness among policy makers, the media and the general public about this major public health issue,"*

As stated earlier we will see similar initiatives in many other countries following up on these two leading organisations. Sweden and Holland is expected to announce concerns concerning T. Gondii very soon.
