

## **PARTIAL LIST OF OROMOS KILLED UNDER THE OUTBRUST OF EPRDF GOVERNMENT INSTIGATED ETHNIC CONFLICT**

The TPLF regime's track record of the past 22 years of rule is full of intrigues that instigated bloody conflicts among nation and nationalities in Ethiopia . As a result of TPLF's machinations Oromo and Sidama, Oromo and Somali, Oromo and Gedao, Anywak and Nuer, Oromo and Amhara, Oromo and Oromo, Oromo and Gumuz and several other people have clashed. As a result thousands of innocent lives were lost, tens of thousands of people were displaced and their houses and properties were destroyed.

The most causes of the conflicts were inequitable distributions of economic and political power or the demand for access to political and economic benefits. Furthermore, almost all of the major conflicts were not based on ethnic antagonisms. Yet, they were labelled as 'inter-ethnic conflicts' simply due to the fact that they bear the names of the participant ethnic groups. Above all, the conflicts are the results of government induced divide and rule policy.

Article 3 of the Universal Declaration of Human Rights (UDHR), which Ethiopia has endorsed, provides "Everyone has the right to life, liberty and security of person." Article 6(1) and 9(1) of the International Covenant on Civil and Political Rights (ICCPR), to which Ethiopia is a party, recognize these basic rights, and stipulate in its Article 2(1) (2) that states parties have an obligation to respect and protect these rights in their respective territories. Moreover, Article 14 of the Constitution of the Federal Democratic Republic of Ethiopia (FDRE) provides, "Every person has the inviolable and inalienable right to life, the security of person and liberty."

However, these fundamental human rights are being violated due to this government instigated ethnic clashes that resulted serious human rights violations and damages caused to public and private property.

OLF Information and Research Unit has outlined below some of the conflicts that have caused of life and property mainly targeted on oromo people are:-

### **1. The Oromo and Gumuz Conflict**

The Oromo and Gumuz peoples have lived together as good neighbors for centuries. They are culturally intermingled and share valuable social, political and economic set-ups. But ever since it came to power, the TPLF/EPRDF regime has applied the outdated 'divide and rule' policy to

weaken peoples' struggles for freedom and justice by sowing seeds of disharmony among friendly neighboring peoples.

### **I) March 4, 2013**

At least 20 people died this weekend in an outburst of violent ethnic clashes on the border of the Benishangul region and the region of Wallagaa, Oromia, in West of Ethiopia: armed militia of the Gumuz ethnic group have been attacking and killing unarmed Oromo civilians. Although the Ethiopian government has deployed its police forces, they remain witness to the raging killings, instead of stopping the killers.

The ongoing armed attacks started last Monday night in the Manasibu district, according to different independent sources in the field. Conflicts have been reported in Odaa, Daleti, Fadun Fardosi, Gunfi, and Badessa, forcing thousands of Oromo families to flee their homes.

### **II) September 2011**

### **III) May 2008**

The outburst of ethnic violence claimed the lives of more than 400 Oromo people. The Gumuz militia attack on the unarmed civilian Oromos caused the death of hundreds and many more injuries and displacement of

hundreds to people, and destruction of houses and properties. Hundreds of Oromos were subjected to horrific and barbaric killings. The militia is said to be so heavily armed that the local police themselves had to flee along with the civilians. The relevant government body and armed forces were bystanders watching the massacre of the unarmed and defenseless Oromos.

The conflict occurred starting on May 17, 2008 in the Anger locality in a place called Haro Wata (Arotegna), Amestegna, Sementegna, Zetenegna and Aseregna villages in Sasiga wereda, East Wollega zone of the Oromia regional state between members of the Oromo and Gumuz ethnic groups. Survivors of the conflict told EHRCO that more than hundred people were brutally killed and injured and thousands were displaced from their homes. Local transportation services were disrupted for security reasons by the time this report was being compiled. As a result, EHRCO investigators could not get access to all the areas affected by the conflict. The information in the following tables were documented based on interviews conducted with local authorities, survivors of the conflict who are receiving medical treatment in Nekemt Hospital and persons who fled their homes and sought refuge in Nekemt and neighboring towns.

## **2. The Oromo and Ethnic Somali Conflict**

### **I) June 2000**

At least 70 Oromos were killed in Eastern Oromia during the armed conflict that ensued between Oromos and Issa Somalis, according to a press release issued on June 30, 2000 by the National Council of the Oromo Liberation Front. Eyewitnesses contacted by say thousands of Oromos around Meiso, Asabot, Dema and Diddimtu are fleeing the area and the situation is very tense. The OLF communiqué accuses the TPLF government of instigating the violent conflict and taking side by arming the Issas and supplying them with ammunition while at the same time disarming the Oromo victims.

### **II) September 1994**

The cry of the Dollo Manna Oromos (BALE) 17 indigenous Oromo villages, which were originally assigned to region 4 have been reassigned to the Ogaden Somali region (Region 5) by the EPRDF and the Ethiopian Somali Democratic League(ESDL) without regard to the opinions and indigenous rights of the Oromo living there. The following information is a rough translation of the appeal these Oromos made to the government. The Oromos indicated that areas of Madda Walaabuu, the cradle of the Oromo land, the dire Sheik Hussein area; and the Sof Omar area were put under the Somali regional administration, thus violating the charter-based rights

of the Oromo people. And they further indicated that the intention behind this annexation is to create conflict and to destroy the historical right of the Oromo to this land, to its rich culture and to the vast human and natural resources on this land. Backed by the EPRDF army, the ESDL opened offices and hoisted the ESDL flag and began to harass the Oromo in the Bale region in relation to their economic, social, and political rights. The ESDL continued preaching its divisive policies by saying that the Somali Gree or Beed clan, the somali Baha (east) clan, the Somali Dhiha (west) clan, and the Somali Aabboo clan belong in specific places on this land. These sentiments are intended to eradicate Oromo identity, culture and history so as to help the EPRDF to deny the Oromo self-determination in their own geographical localities. The EPRDF army and its security forces headed by their commander Wadu Gay have also stood by the ESDL to annex the above mentioned areas, as well as the Rayitu, Dawee and Girira areas into the ESDL region, by using force of arms. That has let a lot of Oromo blood and caused illegal detention, killings and unabated harassment. The Oromo people's appeal indicates that the application that was sent to the OPDO did not produce any result. So the Oromo people said that these violations of Oromo rights and looting of property were ordered from above. It remains the responsibility of the Council of Representatives to resolve this conflict within the shortest possible time. Whatever the consequences are the follow, due to the reluctance of the Council to resolve this conflict, the loss of lives and destruction of property will be the historical responsibility of the Council itself, not just that of the ESDL and the National Defence Force. These Oromo people said that the people of their area have been shocked by the actions of the EPRDF army in the presence of the free court and the police. The signature of several representatives of the Oromo people conclude the appeal, Copies were directed to the Council of Ministers, the Council of Representatives, the Ministry of Internal Affairs and Amnesty International in London.

### **3) The Boranaa and Konso Conflict**

#### **1) March 2008**

Following is a record of human rights violations caused as a result of the clashes that occurred between members of the Borena Oromo and Konso ethnic groups in Teltelle wereda of the Oromia region and between members of the Oromo and Gumuz ethnic groups in the areas bordering the Oromia and Benishangul Gumuz regions.

There have been clashes between members of the Konso and Borena ethnic groups living in Teltelle town and neighboring kebeles in Yabelo zone of the Oromia region since 2005 over claims to grazing and farmlands. The

clashes have claimed the lives of many people and caused huge damages to property.

Since 2007, the conflict between members of the two ethnic groups has aggravated since the Borena Oromos have begun to persistently demand that members of the Konso ethnic group leave the contested areas alleging them of taking over their legitimate plots of grazing lands. As the cause of the conflict has not been addressed adequately, the clashes escalated and turned into deadly confrontations. The conflict that occurred between members of the two ethnic groups starting from March 21,2008 caused loss of lives and damage to property. Following is the details (EHRCO 31 reg report)

## 5. Ethic conflict sparked in Sokoru Woreda, Jimma Zone, Oromia region

Article 39(1)(2) of the FRDRE Constitution stipulates that Every Nation, Nationality and People in Ethiopia has the right to self-determination, and to develop and promote its own culture, language, among others. Accordingly, Yem nationals who reside in Sokuru town and neighboring Kebeles in its environs, Jimma Zone of the Oromia regional state, have requested to be

administered by the Yem special woreda of the South Nation, Nationalities, and People's Regional State (SNNPRS) as of 1993.

In reply to the request, a study committee drawn from the Oromia Regional State and SNNPRS had been organized, and based to the findings of the committee a referendum was held on November 27, 2007 in which the majority voted in favor of administration of the woreda under SNNPRS. However, the result of the referendum has not yet been implemented. Because of this, ethnic conflicts have often flared up, resulting in deaths, human casualties, property damages and security problems.

On November 3, 2006, at 6:00 p.m., over 100 armed security forces entered the Yem nationals Sokoru woreda, Kebele 01 administration, and detained the people they found, and said, "You will fall under our administration as of today." When families of the detainees who heard the news, brought dinner for them at 9:00 a.m., there were prevented by the armed men. This time, conflict broke out between the residing Yem nationals and the armed members of Oromo nationals. The clash raged through the night causing physical injuries and property damages. The conflict has subsided and was brought under control the next day, as members of the Federal police and army reached the area.

EHRCO has investigated and verified the following human casualties and property damages.

#### A. Killing

Mr. Zinabu Abafogi Aba Wari: He was a resident of Wengesho kebele, on November 4, 2006, he was shot to death by a bullet fired by unidentified armed man.
