

Dear Colleague,

We would like to invite you to participate in the forthcoming "3rd Annual International Climate Change, Energy, Food and Water Resources Management Conference – ICEFW 2015" to be held from 2nd – 7th February, 2015.

Environmental pollution is practiced world-wide both water and air pollution and displays an increasing trend both in developed and developing countries. In order to provide a steady and sustainable development, organic management systems should address climate change issues that gain increasing importance as the trade becomes more globalized.

Renewable Energy is not only a new trend in Modern Society, but it is a necessity to fulfill all the basic principles during implementation and consider the impact of organic management system at farm, regional or global level. We are targeting to bring together a large number of experts and participants for the conference.

The effect of Climate Change on social and economic stability of nations will also be discussed.

- Why organic agriculture, for advanced quality and safety of food, to save our environment and our old planet, or to increase welfare of all the actors?
- The role of Engineers and Scientist in climate change mitigation
- How can organic food and non-food production cope with the increasing environmental problems at regional, national or world level?
- Role of Science and Technology in Climate change, storms, landslides and flood control
- Environmental health and Natural medicine
- How does Climate Change affect economic growth?
- How do we foster the use of Renewable Energy?
- Does current marketing of organic products address environmental concerns more than the conventional?
- Rising sea level and impacts on our regular way of life
- Water pollution and water resources management – reducing water borne diseases and erosion/flood control
- Which institutions will continue supporting and promoting Renewable Energy?
- Which countries will prefer to adopt policies to support and apply ecological methods?

THEMES:

*Climate Change Mitigation *Flood and Flood Control *Air Pollution and Public Health *Effects of air pollution on public health *Sources of air pollution *Air pollution monitoring and modeling *Air pollution prevention and control *Urban/indoor air pollution and control *Air quality measurement and management *Global Water Resources and air pollution *Renewable Energy Systems *Early warning systems for disaster management *Land and Mud Slides *Role of Science and Technology in climate mitigation *Biodiversity and Forest Management.

Other topics related to water pollution: *Water Quality and Public Health: *Purification of drinking-water supplies *Treatment, disposal and discharge of waste-water *New waste-water treatment technologies *Methods of monitoring water quality *Modeling and measuring of water pollution *New water purification technologies *Ground water pollution control *Water resources and

quality assessment *Water resource protection and sustainable use *Hydro-biology and water pollution.

Conveners: Renewable Energy Experts: 10, Down Street Mews, West Central, London, W1J 7AU, UK. Phone: +447024008323, Fax: 07024072871.

Important Dates to note:

18th December 2014, Deadline for abstract submission

28th December 2014, Notification of acceptance

18th January 2015, Deadline for full paper submission

2nd – 7th February 2015, Conference dates

We are inviting proposals for paper presentations, workshops/interactive sessions, posters/exhibits, or colloquies. Virtual participation is available for those who are unable to attend the conference in person. Proposal ideas that extend beyond these thematic areas must first be discussed with the conference secretary before being prepared. A few number of Access Grant Award will be granted to Participating Delegates from developing countries attending the conference to cover per diem, flight ticket and registration fees. For more information about the ideas and themes underlying this conference, online registration, accommodation, access grant scholar award and venue, please email the conference secretary: a.wilford@aol.com.

Dr. Alexander Wilford,

Conference Secretary
