7-9 OCTOBER 2015  
MEXICO CITY, MEXICO

THE SPIRIT OF WOMEN IN PARLIAMENTS: ADVANCING SOCIETY  
27-29 November 2013 | European Parliament, Brussels, Belgium

## EVENT OVERVIEW

### **MAKE IT HAPPEN!**

#### **Influence and Power of Women in Parliaments**

40 years ago, Mexico hosted the first World Conference on Women. Delegations from 133 countries participated, out of which 113 were led by women. For the first time ever, 4000 representatives of NGOs attended a parallel forum called International Women's Year Tribune. The conference defined a World Plan of Action including guidelines for the advancement of women. Today in Mexico, 39% of the seats in the Mexican Congress are held by women, and 34.4% of the seats in the Senate. Women have influential roles in Mexican politics. This did not come overnight: already in 1953, the Constitution enshrined the citizenship and suffrage of women, as a result of long years of advocacy by women's organizations. One year before the first Conference on Women, in 1974, the Constitution was reformulated to establish equity between the sexes.

Recently, Mexico passed an amendment to its Federal Constitution stating that political parties should put in place rules to ensure gender parity in the nomination of candidates in federal and local congressional elections. The amendment is the first of its kind in Mexico and with this constitutional reform, Mexico joins those countries that have enshrined gender equality and women empowerment directly in their highest legal text, the national Constitution.

The WIP Mexico Summit 2015 will gather female Parliamentarians from all corners of the world to discuss concrete steps for increasing the number of women in decision making. The WIP Mexico Summit will also welcome Heads of State and renowned representatives from the public and private sectors. The event will take place at the facilities of the Mexican Foreign Ministry on 7-9 October, in a joint effort undertaken by the Mexican Senate, the Office of the President of Mexico, the Ministry of the Interior, the Ministry of Foreign Affairs and the Women in Parliaments Global Forum.

#### **MAKE IT HAPPEN!** **INFLUENCE AND POWER OF WOMEN IN POLITICS**

Since the first World Conference on Women in 1975, women's rights have become an important political issue. Still, many challenges remain, especially as women are still under-represented in political decision-making. This high-level panel discussion will review the achievements of Governments and Parliaments around the world with regards to gender equality in politics. Setting the scene for discussions to follow at the WIP Mexico Summit, panellists will reflect upon the current levels of influence of female politicians and what still remains to be done to achieve parity in politics on a global scale.

16:00-19:00 **PARALLEL SESSIONS**

### **PANEL 1: ELECTORAL PARITY AND QUOTAS – THE MEXICAN EXAMPLE**

In many countries, there are still constitutions that have not ensured the right for women to participate in politics. Consequently, women are little, or not at all, involved in political life. What are the obstacles to the enjoyment of all the rights of women in politics and what could be the solutions? In the case of Mexico, what are the trends of the political leadership and the political will towards participation of women in politics?

### **PANEL 2: HOW TO MAKE IT HAPPEN IN TRADE & BUSINESS**

Women are important economic actors as investors and drivers of entrepreneurial development. Women also have a crucial impact on the multi-lateral trading system. This session will address the solutions for ensuring further participation of women in economic life by also pinpointing the fact that economic empowerment of women stimulates growth and positively impact our societies at large.

### **PANEL 3: HOW TO MAKE IT HAPPEN WITH THE SUSTAINABLE DEVELOPMENT GOALS**

The United Nations General Assembly will adopt the Sustainable Development Goals (SDGs) in September 2015. The WIP Mexico Summit provides the unique opportunity to review the outcomes and to address the crucial issue of implementation, where Parliaments will play a key role. Special attention will be given to the stand-alone goal on Gender Equality, as well as financing Gender Equality for the SDGs through Domestic Resource Mobilisation.

### **PANEL 4: HOW TO MAKE IT HAPPEN WITH PEACE AND SECURITY**

In spite of the international agreements, today only 9% of the peace negotiators are women. This session will address the importance of including women in peace and reconciliation processes. Special attention will be given to the 15th anniversary of the adoption of the UN Security Council resolution 1325 on Women, Peace and Security, which was the first Resolution to address the disproportionate impact of armed conflict on women.

### **PANEL 5: HOW TO MAKE IT HAPPEN: BETTER ACCESS TO HEALTH CARE**

Better access to, and quality of, health care for women, children and elderly is a matter of equality and needs global attention. This session will focus on research, testing and knowledge based health decisions as the core of better functioning health systems. Governments remain the main providers for the basic health care, and this session will explore if there are other alternative providers that can secure better access and status of health care.
