

INVITATION

HOW DO WE SCALE UP CIRCULAR ECONOMY?

Conference on circular economy 6 June 2016

With the European Commission's action plan for the Circular Economy and the strong engagement of the Dutch Presidency of the Council, Europe is getting ready to move towards a more circular economy. The message is clear: Circular economy creates new opportunities for innovation, growth and jobs, and strengthens European competitiveness.

Danish and Dutch companies have already introduced innovative circular economy business models. These companies have firsthand experiences with the opportunities and challenges faced when transitioning to a circular economy.

Learn how a number of companies have included the circular principles in their business model and join the discussion on how the European Union, Member States, companies, and other relevant stakeholders can co-operate in order to transform our society towards a more sustainable path.

Time

Monday 6 June 2016
