Who is EUFORES?

- European Parliamentarians for a Sustainable Energy Future -

EUFORES was established in 1995 and is the cross-party parliamentary network with members from the European Parliament and the EU-28 national parliaments, aiming at promoting renewable energy sources and energy efficiency in Europe. A key-activity of EUFORES is the exchange of information between European and national parliamentarians, as well as parliamentarians and relevant stakeholders.

EUFORES has developed an intense institutional network at EU and national level, and has become one of the driving forces in the renewable energy sector. As part of its efforts, it organises regularly Inter-Parliamentary Meetings on Renewable Energy and Energy Efficiency. It also advises on policy, disseminates up to date information to its members and promotes beneficial legislation (i.e. by various projects) in the fields of renewable energy and energy efficiency.
