Mr. Michel Barnier, Chief Negotiator
European Commission, Article 50 Task Force

Dansk Industri
Confederation of Danish Industry

The possible impact of Brexit on Danish businesses

Dear Mr. Barnier,

In view of the upcoming negotiations between the EU and the United Kingdom, we would like to provide you with the attached short paper outlining a number of specific interests at stake for the Danish businesses that we represent as the Confederation of Danish Industry (DI).

We hope that you and your team will find this input useful. It should be seen in the overall context of your dialogue with BusinessEurope whose messages on this subject we fully endorse.

We are looking forward to a further dialogue with you and your team on the points raised and would be happy to meet with relevant members of the team when appropriate.

We would also like to point out that DI is actively engaged in promoting Denmark's bid to host the European Medicines Agency post-Brexit, and intend to provide shortly, together with other Danish stakeholders, further input on this to the European institutions.

Yours sincerely,

Anders Ladefoged,
Director of European Affairs
Confederation of Danish Industry
