

Overview of Tables and Figures

Talva I 1 / Table I 1	<p>GDP demand/expenditure in DKK millions in current prices, and respective annual percentage contribution to GDP growth 2011-2018</p> <p>[Private consumption, public (government) consumption, private investment (of which domestic-produced investment), inventory fluctuations, government investment, total investments without inventory fluctuations, domestic demand, total export, export of goods, export of services, total demand (without import), total import, import of goods, import of services, net export (foreign demand), GDP (domestic demand plus net export), Gross Domestic Product]</p>
Talva I 2 / Table I 2	<p>GDP demand/expenditure as percent of total GDP in current prices in 2011-2018. [Private consumption, public (government) consumption, private investment (of which domestic-produced investment), inventory fluctuations, government investment, total investments without inventory fluctuations, domestic demand, total export, export of goods, export of services, total demand (without import), total import, import of goods, import of services, net export (foreign demand), GDP (domestic demand plus net export) = 100%, Gross Domestic Product]</p>
Mynd I 1 / Figure I 1	<p>GDP growth in current prices derived from domestic and foreign demand, respectively, 1999-2018.</p>
Mynd I 2 / Figure I 2	<p>Trend in domestic demand in GDP expenditure, (index 1998=100), 1998-2018.</p>
Mynd I 3 / Figure I 3	<p>Foreign demand in GDP expenditure and consumer price index, (net export right axis), 1998-2018, (index 1998=100).</p>
Mynd I 4 / Figure I 4	<p>Real estate prices and consumer price index (consumer price index right axis), 1998-2017 (Q1).</p>
Mynd I 5 / Figure I 5	<p>Value-added in primary, secondary and tertiary businesses in percent, 1998-2018.</p>
Mynd I 6 / Figure I 6	<p>Value-added in primary, secondary and tertiary businesses in DKK millions, 1998-2018.</p>
Mynd I 7 / Figure I 7	<p>Business profits (left axis) and company-paid wages (left axis) in DKK millions, and ratio profits/wages (right axis), 1998-2018.</p>
Mynd I 8 / Figure I 8	<p>Employees (left axis) and wages per employee (right axis) in businesses in DKK millions, January 1998 to January 2017.</p>
Mynd I 9 / Figure I 9	<p>Unemployment percentage (left axis) and net immigration (right axis) calculated as 12-month rolling total, January 1998 to July 2017.</p>
Mynd I 10 / Figure I 10	<p>Population (left axis) and net immigration (right axis), calculated as 12-month rolling total, January 1998 to January 2017.</p>
Mynd I 11 / Figure I 11	<p>Spot price of oil (DKK/barrel), August 2014 to August 2017.</p>
Mynd I 12 / Figure I 12	<p>Weekly spot price for salmon in Norwegian kroner (NOK), January 2011</p>

to August 2017.

Mynd I 13 / Figure I 13	Yearly fluctuations (in percent) in salmon spot prices, 2005-2017, in Norwegian kroner (NOK).
Talva I 3 / Table I 3	Import/export of goods. [<i>Import</i> , first half of 2017, for farming and fishing, for construction, for other production, fuel and other, machines and other equipment, cars and vehicles for direct consumption, ships and aircrafts and other, raw materials for fish processing, total import of goods, import of goods excl. ships and aircraft and other; <i>Export</i> , first half of 2017, farmed fish, pelagic fish, demersal fish and other, other goods, ships, total export of goods, export of goods excl. ships and other; <i>trade balance</i> for the years 2008-2016, incl. ships and other goods in DKK millions, excl. ships and other, in DKK millions]
Mynd I 14 / Figure I 14	Consumption ratio for households according to National Account figures, 1998-2018. (private consumption / disposable income)
Mynd I 15 / Figure I 15	Wage income and import of consumer household goods [durable, semi-durable and non-durable], January 2010 to July 2017, shown as index (Jan 2010= 100).
Mynd I 16 / Figure I 16	Net Total - The expected financial situation of Faroese households 1 year ahead, January 2006 to June 2017.
Mynd I 17 / Figure I 17	Business trends survey for households: Total confidence index for Faroese households, January 2006 to June 2017.
Mynd I 18 / Figure I 18	Private consumption expenditure in DKK millions and growth in percent (right axis), 1999 - 2018.
Mynd I 19a / Figure I 19a	Wage payments, year-to-year changes in percent, based on 12-month rolling total, January 2007 to July 2017: all business sectors, primary business sectors, secondary business sectors (incl. construction).
Mynd I 19b / Figure I 19b	Wage payments, year-to-year change in percent, based on 12-month rolling total, January 2007 to July 2017: all business sectors, private tertiary business sectors, and the government sector.
Talva I 4 / Table I 4	Wage payments in each business sector, and the contribution to overall growth in wage payments for each business sector, and relative size of the wage payments for each individual business sector for first half of 2016 and 2017. [farming, fishing, fish farming and gutting, raw material extraction industry, fish processing industry, shipyard and forge, other industry, construction, energy and water supply, commerce and repairs, hotel and restaurant industry, sea shipment, other shipment, post and telecommunications, finance and insurance, commercial services, domestic services, national administration, municipalities and Danish government institutions, education, health and social services agencies, associations and culture and other, uncategorised, total]
Mynd I 20 / Figure I 20	The number of employees (left) and the number of full-time unemployed (right), adjusted for seasonal trends, January 2006 to July 2016.

Mynd I 21 / Figure I 21	Private investment in DKK millions, and yearly private investment growth in percentage (right axis), 1999-2018.
Mynd I 22 / Figure I 22	Private, domestic-produced investment in DKK millions and yearly growth in percent (right axis), 1999-2018.
Mynd I 23 / Figure I 23	Business trends barometer for construction June 2006 to June 2017 (orders, expected prices, expected labour needs, months of contracted work (right axis)).
Mynd I 24 / Figure I 24	Business trends barometer for construction, June 2006 to June 2017: perceived limitations in production (none, demand, weather, labour, raw material/equipment, financial limitations, other).
Mynd I 25 / Figure I 25	Government (<i>i.e.</i> public) consumption in DKK millions and yearly growth in government consumption in percent (right axis), 1999-2018.
Mynd I 26 / Figure I 26	Government (<i>i.e.</i> public) investment in DKK millions, 1998-2018 (central government, municipalities).
Mynd I 27 / Figure I 27	Government (<i>i.e.</i> public) investment in DKK millions, and yearly growth in government investment in percent (right axis), 1999-2018.
Mynd I 28 / Figure I 28	Central government financial results (central government budget balance) in DKK millions, 2000-2018.
Mynd I 29 / Figure I 29	Net public debt, 2000-2018, in DKK millions (central government, municipalities, social funds, public sector total).
Mynd I 30 / Figure I 30	Central government gross debt and gross assets in DKK millions, 2000-2018 (gross assets, gross debt, net assets)
Mynd I 31 / Figure I 31	Export of three types of fish products, calculated as 12-month rolling total, January 1994 to June 2017, in DKK millions (salmon, pelagic fish, demersal fish).
Mynd I 32 / Figure I 32	Fish farming slaughter (live weight), 1999-2017, million tonnes.
Mynd I 33 / Figure I 33	Values of landed catch of mackerel, herring and blue whiting, in DKK millions, 2000-2016 (herring, mackerel, blue whiting).
Mynd I 34 / Figure I 34	Export of pelagic fish, calculated as 12-month rolling total, January 2000 to May 2017, in DKK millions (mackerel, herring, blue whiting, fishmeal and fish oil).
Mynd I 35 / Figure I 35	Export of fish products, calculated as 12-month rolling total, January 2000 to May 2017, in DKK millions.
Mynd I 36 / Figure I 36	Balance of foreign trade (goods only) calculated as 12-month rolling total, January 1994 to June 2017, in DKK millions (ships excluded, ships included).
Mynd I 37 / Figure I 37	Import and export of goods (ships excluded) calculated as 12-month rolling total in DKK millions, January 1994 to June 2017, (imports – red, exports – blue).
Talva I 5 / Table I 5	Summary (synthesis) of main assumptions for projections 2013-2018.

Mynd II 1/Figure II 1	Gross investments as % of GDP, 2000-2013: Faroe Islands, Denmark, Sweden, EU countries.
Mynd II 2/ Figure II 2	Number of employees in construction 1997-2016.
Mynd II 3/Figure II 3	Changes in population, excess of births and net immigration 1970-2016.
Talva II 1/ Table II 1	Number of first time work & resident permits for foreign citizens (excluding Nordic) 2011 – 1.half of 2017
Talva II 2/Table II 2	Number of family union permits for immigrants 2011 to 1. half of 2017.
Talva II 3/Table II 3	Immigration and emigration to/from Faroe Islands for domestic (i.e. Danish) citizens and foreign citizens, 2011-2016.
Mynd II 4/Figure II 4	Construction of new homes 1998-2016.
Mynd II 5/Figure II 5	Number of employees in construction and the construction of new homes 1998-2016.
Talva II 4/Table II 4	Number of people residing in the Faroe Islands and receiving wage income from abroad for work on land (not the Sea) and the amount of wages received, 2010-2015.
Mynd II 6/Figure II 6	Number of people residing in the Faroe Islands and receiving wage income from abroad for work on land (not the Sea) (left axis), and the amount of wages received (right axis), 2010-2015.
Talva II 5/Table II 5	Total expenditures of the central government and of the municipalities, excluding the expenditures of eldercare, 2011-2017.
Talva II 6/Table II 6	As table II 5, index 2011= 100.
Talva II 7/Table II 7	The financial results for the central government and for the municipalities (minus means surplus), 2011-2017
Talva II 8/Tabel II 8	The operating expenses for the eldercare 2011-2017.
Talva II 9/Table II 9	Investments of the central government and of the municipalities 2011-2017 (as the concept of investment is defined in the governmental accounts).
Talva II 10/Table II 10	As table II 9, index 2011=100.
Talva II 11/Table II 11	Number of employees in May 2008 and in May 2017, total and within four branches of trade.
Talva II 12/Table II 12	Number of employees 2011-2016 within 23 branches of trade.
Mynd II 7/Figure II 7	Number of employees 2011-2016 in six geographical districts, index 2011=100
Mynd II 8/Figure II 8	Annual increase in the number of employees in six geographical district 2012-2016

Mynd II 9/Figure II 9

The number of employees in six age groups 2011-2016, index 2011= 100.
