OVERCOMING BARRIERS IN MINDS AND SOCIETY

8TH CONFERENCE – TOGETHER AGAINST STIGMA

We are pleased to announce that the 8th International Together Against Stigma Conference will be held in Copenhagen, Denmark, September 20th-22nd, 2017.

Stigma of mental illness is a global challenge resulting in discrimination and exclusion from social life, education and the labor market. The conference will provide an opportunity to establish links between representatives of programs against stigma in different countries and professions as well as people with lived experience of mental illness.

The aim is to create an overview on research, campaigns and other initiatives combatting stigma as well as providing a deeper understanding of effective methods for

identifying and challenging knowledge, attitudes and behavior constituting barriers in minds and society.

The conference is relevant for professionals, researchers, anti-stigma campaigners, politicians, people with lived experience of mental illness and their carers as well as others with a special interest in the field. The conference is hosted by the Danish national anti-stigma campaign ONE OF US in collaboration with the World Psychiatric Association's (WPA) Stigma Section.

Find more information about the conference, the venue and registration on www.againststigma2017.com

THE OVERALL CONFERENCE THEMES ARE:

- People with lived experience of mental illness, their peers, relatives and carers
- Professionals, staff and clinical practice
- Youth and other special population groups
- Work and social inclusion
- Communication and the media

CONFERENCE THEME COLOURS

To help participants navigate the program: each conference theme has its own colour which appears throughout the parallel sessions; and some presentations cover more than one theme and then only the dominant theme colour will appear. All five conference themes are represented in each parallel session.

Orange indicates presentations that are of a more horizontal or general nature and light brown indicates the three courses. Participation in courses will require specific registration – more information will follow.

In the parallel sessions there are:
1) symposia (coded SY-...) which have been coordinated by the presenters and

2) oral presentations (coded OR-...) combined by the Steering Committee under a common headline which all presentations relate to.

Posters will be presented on day two in the lunch break. A list of posters can be found on page 16.

DAY 1:

20. SEPTEMBER

TIME	TOPIC
8.00 - 9.15	Registration, coffee, tea, fruit, croissant Creative and dialogue area
9.15 - 10.00	OPENING CEREMONY ONE OF US US-ambassador Chair <i>Graham Thornicroft</i> , WPA Stigma Section President <i>Bent Hansen</i> , Danish Regions President <i>Martin Lund</i> , ONE OF US Project Manager <i>Johanne Bratbo</i> , ONE OF US
