

# IT IS ENOUGH!

41 YEARS ARE TOO MANY!

**WE WANT THE SAHRAWI PEOPLE AT THEIR HOME, WE WANT THEM FREE!**

During these 41 years, Spain, administering power, has never wanted to assume its responsibility towards the citizens of the region they used to call province 53. The different governments of the era of democracy have deliberately forgotten the Sahrawi people.

Enough is enough! Spain has to take responsibility in order to put an end to the process of decolonisation of the Sahrawi people. Spain has to support the organisation of a referendum on self-determination with all the democratic guarantees to ensure the free will of the Sahrawi people.

In the meantime, we must call for an end to the systematic human rights violations committed by the Kingdom of Morocco in the occupied territories. It is necessary to claim for the extension of the mandate of MINURSO to the control and protection of human rights in Western Sahara.

All of us, the citizens that have supported the Sahrawi people on their arduous path will continue, loyally and unconditionally, to encourage them to fight for their rights.

It is time to join forces and strengthen partnerships, as much as possible, so the Sahrawi people get the Freedom they deserve. A Freedom that is more valuable than life, a Freedom that was taken away from them more than 40 years ago.
