Source: Eurostat data extracted on 28 March 2017

Recognition rate was calculated by dividing the number of first-instance decisions granting refugee status or subsidiary protection by the total number of first-instance decisions.

Recognition rate including humanitarian reasons was calculated by dividing the total number of positive first instance decisions (refugee status, subsidiary protection and humanitarian reasons) by the total number of first instance decisions.

Summing up subcategories might not always add up to the total due to rounding.
