American Embassy
Copenhagen, August 12, 1953

AFKlassificeret

09 APR. 2019

The American Embassy presents its compliments to the Ministry for Foreign Affairs and has the honor to refer to paragraph 1 of the Ministry's Note Verbale of March 14, 1953 (Journal no. 105.F.2.a), regarding the location of a proposed new defense area in Greenland to accommodate a meteorological station.

The Department of State has been advised by the Department of the Air Force that in a recent joint review of world-wide plans for United States meteorological stations, it was determined that the location of the station above referred to would better suit requirements for weather data if its proposed site was changed from 75° North - 40° West to 71° North - 40° West. The Joint Chiefs of Staff have approved the change in location and appropriate changes to Air Force plans are being made.

These changes in plans have made it necessary to postpone indefinitely the on-site surveys to determine the exact geographical location of the station. A

request

Ministry for Foreign Affairs,
Copenhagen
