

The University of Copenhagen invites you to the inauguration of the LEO Foundation Skin Immunology Research Center.

By establishing the Center we launch an ambitious interdisciplinary approach that will pave the way for better understanding and treatment of skin diseases.

The Center is made possible by a visionary grant of DKK 400 million (more than EUR 50 million) over 10 years from the LEO Foundation. The grant enables the Center to attract world-leading researchers in immunology, omic technologies, skin and skin disease to the new headquarters in the Mærsk Tower with an aim to develop into an international beacon for skin research.

We look forward to welcoming you to a day of celebration for the University.

Kind regards,

Ulla Wewer
Dean, Professor, DMSc

Scientific Symposium

9:30-12:00, *Holst Auditorium*

The inauguration is initiated by a distinguished symposium on skin and skin diseases.

Keynote speakers include:

Professor Tomas Mustelin, University of Washington
Professor Arne Akbar, University College London
Professor Christopher E.M. Griffiths, University of Manchester
Professor Matthias Mann, University of Copenhagen

Inauguration Ceremony

13:30-15:30, *Jerne Auditorium*

The Center is officially inaugurated in the presence of Minister for Higher Education and Science Tommy Ahlers and Rector Henrik C. Wegener.

The ceremony is followed by a reception.

Please sign up for the events at sic.ku.dk no later than 17 February 2019.
