To: Mrs. Pia Kiaersgaard

President of the Parliament of the Kingdom of Denmark

I and on behalf of the MPs in the Yemeni House of Representatives would like to convey to you and through you to the MPs of your Parliament and leadership, government and people of Denmark our thanks and gratitude for your courageous decision to stop arms sales to Saudi Arabia.

This is the decision by which you declare your rejection of the injustice imposed on the Yemeni people for four years by the Saudi-led aggression against Yemen through which it has committed the worst crimes of war and massacres against the innocent Yemeni children, women and old people and has destroyed the economic, developmental and livelihood structures that the Yemeni people have struggled to achieve since the revolution of September 26th, 1962. The living, health and financial situation of the Yemeni people has reached a tragic and catastrophic level until it becomes the worst humanitarian disaster in the world.

You have dealt with the Yemeni issue by this decision as a case of a people subjected to injustice, killing, blockade, starvation, diseases and poverty. You have adopted humanitarian, moral and legal standards away from the standards associated with political factors and international interests; you have supported noble values and principles and contributed to reducing the suffering of people and country.

This is the approach that we hope you to further continue on, so that you enhance your cultural values and your moral and humanitarian principles and adopt further steps and initiatives that will stop the aggression, killing and destruction in our country.

There is no doubt that you know some of the human and material effects of aggression on our country. To inform you of the truth of these losses, a number of statistics, data and films documenting the crimes and massacres of this barbaric aggression against our country and our people are attached to this letter.
