You can trust Huawei

Dear all,

During the last few days, Huawei's position as vendor to TDC has been the subject of media scrutiny and political worry.

I want to assure you that Huawei complies with all applicable laws and regulations where it operates, including applicable export control and sanction laws and regulations of the UN, US and EU.

We have a long-standing cooperation with TDC and Danish authorities. We strive to make sure that our products undergo relevant procedures to provide assurance that they comply with rules and standards and pose no risk.

We will make ourselves available to answer any question you may have.

Best regards,
