

We are delighted to invite you to attend the **5th anniversary edition of the European Cybersecurity Forum – CYBERSEC 2019** on **29-30 October 2019** at the **International Congress Centre in Katowice, Poland.**

Since its launch in 2015, CYBERSEC has hosted conferences in Krakow, Warsaw, Brussels, Washington DC and is now recognised as one of the top five cybersecurity public policy conferences in Europe.

Last year's edition brought together a record-breaking 150 speakers and more than 1,000 delegates from all over the world.

The leitmotif of this year's CYBERSEC edition – ***Securing the world's digital DNA*** – is not just a theme but our long-lasting commitment to promote responsible and conscious behaviours based on the *security by design* principle among all stakeholders and within the entire digital global value chain.

We cannot wait to share all the details of this 5th anniversary edition of CYBERSEC with you!
