Emne: Institute of AI Legislators Network

Dear colleagues –

Thank you once again for expressing an interest in the international delegation being organised by the Institute of AI here in the UK, on the topic of the regulation of artificial intelligence. I'm delighted that we now have expressions of interest from 30 countries across all regions of the world and we're currently signing partnership agreements with the OECD and the World Economic Forum.

The team are still working with philanthropic donors and sponsoring businesses to ensure we can fly you to the UK for our conference in 2020, but in the meantime I will be setting up an AI Legislators WhatsApp group (which has worked well for a similar global team I'm part of through the Commonwealth on tackling modern slavery).

If you would like to be added to our AI legislators WhatsApp group, please can you reply to this e-mail with your mobile telephone number.

In addition, I'm now looking for regional champions to join the Institute's Advisory Board. If you'd be interested in being an advocate for the Institute of AI in your part of the world, then please do let me know by reply to this e-mail too.

Thanks in advance and all the best

Darren

Darren Jones MP

Member of Parliament, Bristol North West

Executive Chairman, Institute of AI

Your Voice in Parliament. Your Champion in Bristol.
