

# COVID-19 TESTPLATFORM

FOLKETINGETS  
SUNDHEDSUDVALG

# HVAD KAN VI?

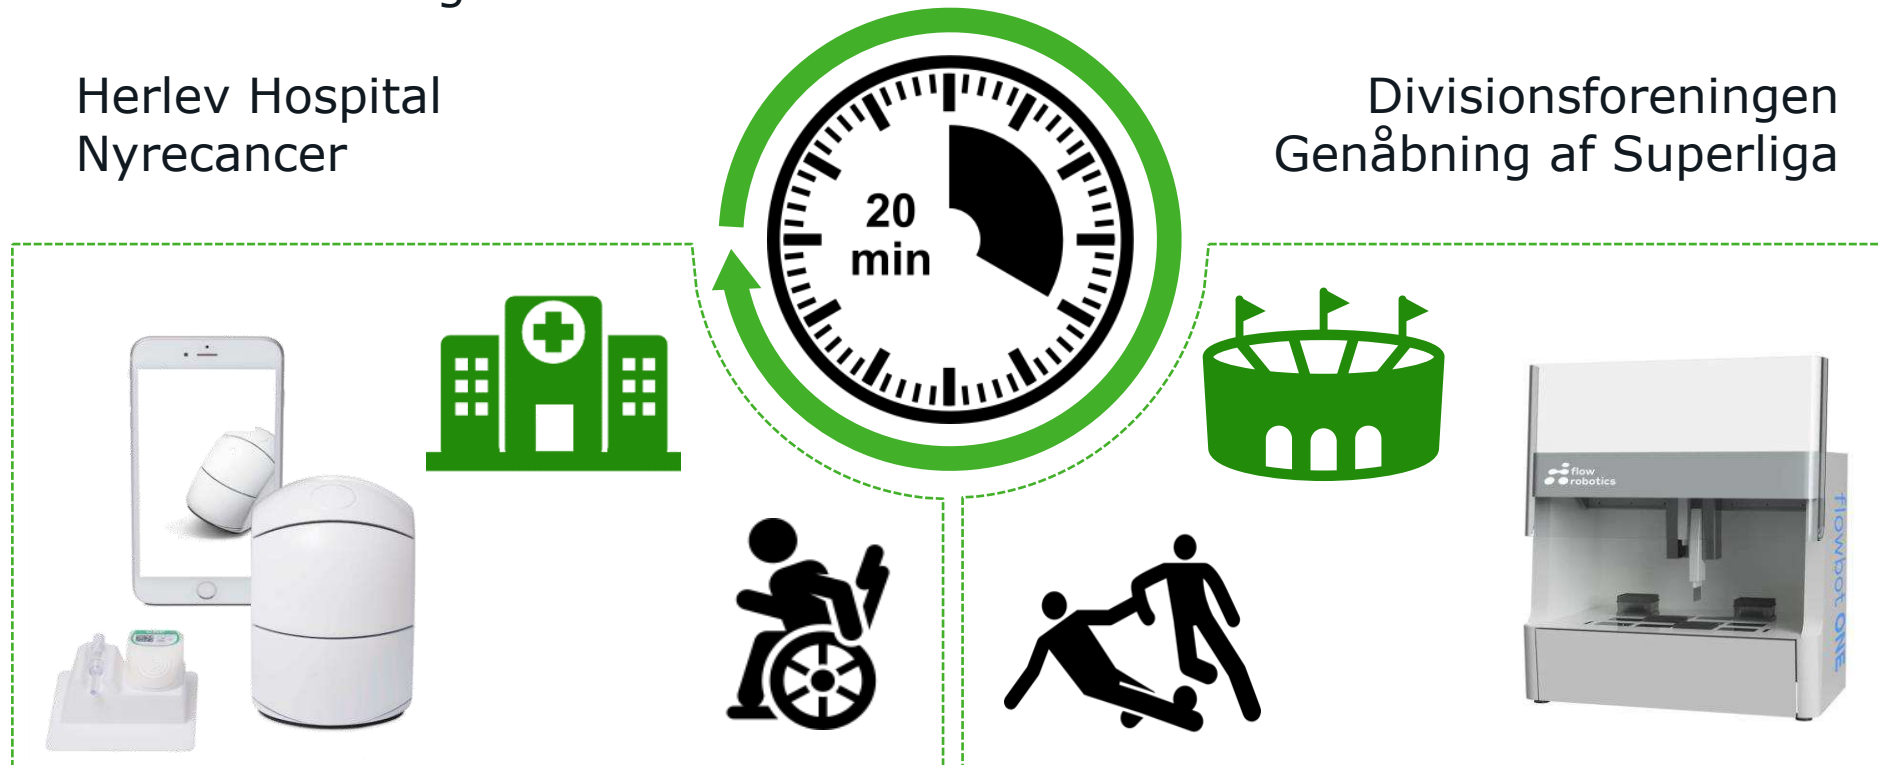

## Test og hurtigt svar

Individuel test  
Decentralisering

Herlev Hospital  
Nyrecancer

Massetest  
Stor udbredelse

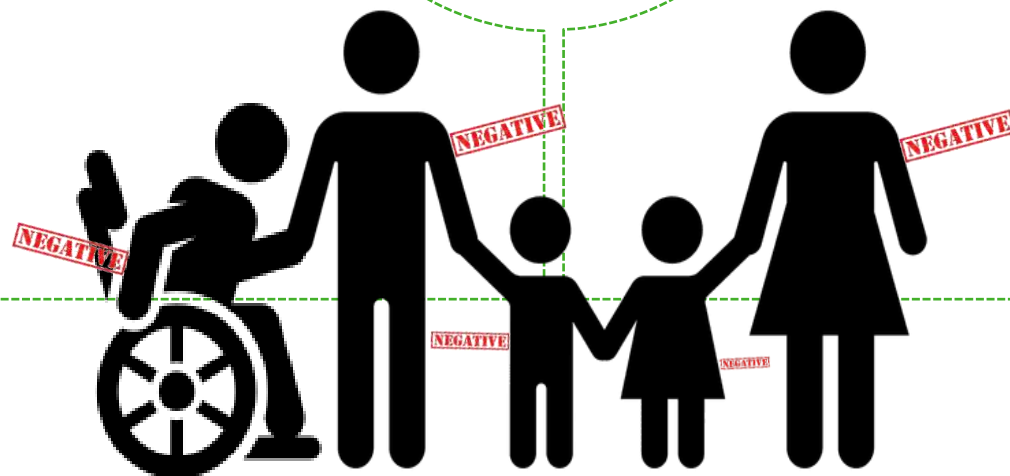

Divisionsforeningen  
Genåbning af Superliga

# HVORDAN GØR VI?

## Smittefrie rum

COVID-19 har gjort de  
ældre og udsatte i  
samfundet endnu  
mere isolerede og  
ensomme

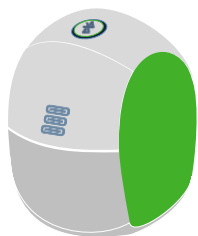

## Fleksibilitet

Individuel vs. Masse

1

**APPARATUR**

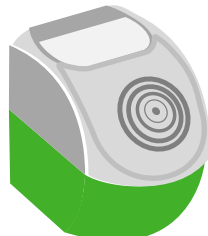

Mobilitet

## Skalerbar

Mange andre sygdomsområder

2

**KAPSLEN**

Der findes kapsler til en  
stribе af biomarkører

## Hastighed

Det går stærkt

3

**APP'EN**

Hurtig adgang til  
testresultater med det  
samme

## Data

Sikker og solid infrastruktur

4

**DATASIKKERHED**

Sikker og stabil deling med  
myndigheder og  
sundhedssektor

COVID-19

CRP&Hb

ALAT

HbA1c

Lipids

Vitamin D

Cortisol

Humira

Lactat

# SPØRGSMÅL?

- Qlife complies with the IVD (in-Vitro Diagnostics) directive, in particular Annex I of IVD 98/79 / EC
- Qlife comply with a so-called "conformity assessment" - ie if you comply (conform) with this annex / directive.
- Qlife comply with
  - ISO 15223-1: 2016 and
  - IVDD Annex I section B8.4 (f) and
  - MEDDEV 2.14 / 2 rev.1 Feb.2004. Guideline on medical devices.

*The test has a sensitivity and specificity of at least 95%, which is the market standard. A positive person typically has thousands to millions of virus copies. The Qlife test has a sensitivity down to 25 copies of the RNA virus.*
