Limit on 650 participants for the conference.
Participation regime is first registered, first served.

About the conference

Construction works on the Fehmarn Belt Fixed Link will start in Denmark in the spring of 2020. Fehmarn Link Business Conference 2020 is a one-day event where regional and international businesses will have the opportunity to become informed about the up-start processes from the clients and consortia, meet other suppliers and engage in strategic partnerships.

Booking of stands

Businesses will have the opportunity to book a "stand" and use this set-up for the promotion of own business expertise to other businesses present. Providers of heavy construction machinery will have the opportunity to purchase an outdoor area for exhibition of their equipment.

Further information

Visit www.femern-conference.com where all information prior to the event, updated programme, participant lists etc. will be available.
