LETTER TO G20, IMF, WORLD BANK, REGIONAL DEVELOPMENT BANKS and NATIONAL GOVERNMENTS

My dear colleagues,

I write to ask if you would like to join me and 120 prime ministers, presidents, former leaders, economists, policy makers and leaders of NGO's in signing this joint letter to the G20, the IMF, the World Bank, Regional Development Banks and National Governments.

The letter asks for concrete measures to address the global education emergency triggered by Covid-19. With over 1 billion children still out of school because of the lockdown, there is now a real and present danger that the public health crisis will create a COVID generation who lose out on schooling and whose opportunities are permanently damaged.

You can sign the letter by clicking here, and filling in your name: <https://www.surveymonkey.co.uk/r/SJQQ2ST>

With apologies for the tight deadline, I would be grateful for replies by 9AM British Summer Time, on SUNDAY 16TH August. The letter will be published on Monday 17th August.

Best wishes,

The Rt Hon. Liam Byrne MP , United Kingdom

Chair of the Parliamentary Network  
on the World Bank and IMF

LETTER TO G20, IMF, WORLD BANK, REGIONAL DEVELOPMENT BANKS and NATIONAL GOVERNMENTS

We write to call for urgent action to address the global education emergency triggered by Covid-19. With over 1 billion children still out of school because of the lockdown, there is now a real and present danger that the public health crisis will create a COVID generation who lose out on schooling and whose opportunities are permanently damaged. While the more fortunate have had access to alternatives, the world's poorest children have been locked out of learning, denied internet access, and with the loss of free school meals - once a lifeline for 300 million boys and girls –hunger has grown.

An immediate concern, as we bring the lockdown to an end, is the fate of an estimated 30 million children who, according to UNESCO, may never return to school.. For these, the world's least advantaged children, education is often the only escape from poverty- a route that is in danger of closing

Many of these children are adolescent girls for whom being in school is the best defence against forced marriage and the best hope for a life of expanded opportunity. Many more are young children who risk being forced into exploitative and dangerous labour. And because education is linked to progress in virtually every area of human development – from child survival to maternal health, gender equality , job creation and inclusive economic growth – the education emergency will undermine the prospects for achieving all our 2030 Sustainable Development Goals and potentially set back progress on gender equity by years. According to the World Bank the long-term economic cost of lost schooling could be as much as \$10 trillion in lost productive output.

We cannot stand by and allow these young people to be robbed of their education and a fair chance in life. Instead we should be redoubling our efforts to get all children into school – including the 260 million already out of school and the 75 million children affected by protracted conflicts and forced displacement, including 35 million children living as refugees or internally displaced - with the comprehensive help they need- and to make it possible for young people to start or resume their studies in school further and higher education .

There is a longer-term challenge. Even before Covid-19, the world faced a learning crisis. Over half of the children in developing countries suffering 'learning poverty' and even at age 11 had little or no basic literacy and numeracy skills. As a result, 800 million of today's young people leave education with no qualifications whatsoever.

When schools reopened after Pakistan's 2005 earthquake attendance recovered, but four years later children had lost the equivalent of 1.5 years of schooling . If we are to avoid this for millions of children who are now preparing to return to school and who have lost over half a year of education,resources are now urgently needed to get young people back into education and enable them to catch-up. What is more, we should rebuild better: more support for online learning, personalised learning, teacher training , conditional cash transfers for poor families and safer schools that meet 'distancing' rules ; building on the enormous community effort that has been displayed during the pandemic and the coalition of global organisations that has now joined forces in the 'Save our Future' initiative launched on August 4.

Yet at the very time we need extra resources, education funding is in danger on three fronts:

1. As slower or negative growth undermines tax revenues, less money may be available in almost every country for public services, including education.
2. When allocating limited funds, governments are prioritising expenditure on health and economic recovery leaving education crowded out and underfunded.
3. Intensifying fiscal pressure in developed countries will result in reductions in international development aid, including aid for education, which has already been losing out to other priorities in the allocation of bilateral and multilateral aid. There is also a danger that multilateral donors, who already under-invest in education, will reallocate funds.

The World Bank now estimates that, over the next year, overall education spending in low and middle-income countries could be \$100-150 billion lower than previously planned.

This funding crisis will not resolve itself.

We call on the G20, the IMF, World Bank and regional development banks and all countries to recognise the scale of the crisis and support initiatives to enable catch-up to happen, and progress towards SDG4 to be resumed:

- First, every country should pledge to protect education spending, prioritising the needs of the most disadvantaged children through where possible, conditional and unconditional cash transfers to promote school participation
- Second, the international community must increase aid for education, focusing on the most vulnerable, including the poor, girls, children in conflict situations and the disabled. The quickest way to free up resources for education is through debt relief. The 76 poorest countries have to pay \$86 billion in debt-service costs over the next two years. We call for debt suspension with a requirement that the money for debt servicing be reallocated to education and other priority investments for children.

- Third, the IMF should issue \$1.2 trillion in Special Drawing Rights (its global reserve asset) and its membership should agree to channel these resources toward the countries that need them most, creating a platform for recovery.

And fourth, the World Bank should unlock more support for low income countries through a supplementary International Development Association budget, and, following the lead of the UK and Netherlands which have now pledged \$650m to the new International Finance Facility for Education (IFFED) to help unlock billions in extra finance for education in lower middle income countries, invite additional guarantees and grants from donors. This is in addition to -and compliments - over the next 2 years the replenishment of GPE (Global Partnership for Education) . scaled up investment in ECW (Education Cannot Wait) and continued support for the UN agencies focused on education and children led by UNESCO and UNICEF. We also call on private sector corporations and foundations to make support for global education a greater priority

Sustainable human development can only be built upon a foundation of quality education .While the challenges are momentous, the impact of the crisis on children has made us even more determined to realise our ambition contained in Sustainable Development Goal 4, that ours can be the first generation in history in which every child is at school and has the chance to develop their potential to the full. Now is the time for national governments and the international community to come together to give children and young people the opportunities they deserve and to which they are entitled .

Signed,

Dr Shamshad Akhtar - UN Under Secretary-General and Executive Secretary of ESCAP & Assistant Secretary-General at UN DESA (2013-2018); Governor of the State Bank of Pakistan (2006-2009)<sup>1</sup>

Dr Farida Allaghi - Ambassador of Libya to the European Union (2015-2016)<sup>3</sup>

HE Dr Abdulaziz Altwaijri - Director General of the Islamic Educational, Scientific and Cultural Organization (1991-2019)<sup>3</sup>

Dr Roger Ames - Director of the Center for Chinese Studies, University of Hawaii

Dr Kwame Anthony Appiah - Professor of Philosophy and Law, NYU

Shaukat Aziz - Prime Minister of Pakistan (2004-2007)<sup>34</sup>

Professor Julian Baggini - Academic Director of the Royal Institute of Philosophy

Jan Peter Balkenende - Prime Minister of the Netherlands (2002-2010)<sup>2</sup>

Carol Bellamy - Executive Director of UNICEF (1995-2005)<sup>1</sup>

Nicolas Berggruen - Chairman of the Berggruen Institute<sup>4</sup>

Tony Blair - Prime Minister of the United Kingdom (1997-2007)

Irina Bokova - Director-General of UNESCO (2009-2017)<sup>1</sup>

Kjell Magne Bondevik - Prime Minister of Norway (1997-2000; 2001-2005)<sup>2</sup>

Professor Sir Leszek Borysiewicz - Vice Chancellor, University of Cambridge (2010-2017)

Ouided Bouchamaoui - President of UTICA (2011-2018); Nobel Peace Prize Laureate (2015)<sup>3</sup>

María Eugenia Brizuela de Ávila - Minister of Foreign Affairs of El Salvador (1999-2004)<sup>1</sup>

John Bruton - Taoiseach of the Republic of Ireland (1994-1997)<sup>25</sup>

Kim Campbell - Prime Minister of Canada (1993)<sup>2</sup>

Fernando Henrique Cardoso - President of Brazil (1995-2003)<sup>2</sup>

Dr Vinton G. Cerf - Co-Inventor of the Internet<sup>3</sup>

Hikmet Çetin - Minister of Foreign Affairs of Turkey (1991-1994), Speaker of the Grand National Assembly (1997-1999)<sup>35</sup>

Baroness Lynda Chalker - Minister of Overseas Development of the United Kingdom (1989-1997)<sup>5</sup>

Helen Clark - Prime Minister of New Zealand (1999-2008); UNDP Administrator (2009-2017)<sup>235</sup>

Joe Clark - Prime Minister of Canada (1979-1980)<sup>5</sup>

Emil Constantinescu - President of Romania (1996-2000)<sup>3</sup>

Radhika Coomaraswamy - UN Under-Secretary-General and Special Representative for Children and Armed Conflict (2006-2012); UN Special Rapporteur on Violence Against Women (1994-2003)<sup>1</sup>
