EpiNATO-2 Illness & Injury Surveillance - AMedP 4.1 Ed A V 2

	Mission:	**DANCON RS13**	**Template version:**	**1 issued on yyyy-01-00**

I			
	MTF location (town, formation, base/camp):	HKIA NORTH/KABUL	
	MTF / vessel NAME (PIC):	NSE	
	MTF nationality trigram(s), lead nation first:	DNK	
	Contact Email Address (NU or NS):	RSM-14NSE05@fiin.dk	
	Contact phone number (commercial / mobile):		
	Name of the Me 1	████████ & ████████	
	Name of the data entry person:	████████ &	

II		
	Report date (ISO 8601 format YYYY-MM-DD):	2021-06-05
	ISO 8601 calendar week:	21-22

III	MTF denominator during the reporting period:	
IV	MTF total number of consultations during the reporting period:	23

	Item code	Event to report	Number of new cases by event
	Alpha	Gastrointestinal Infection	6
	Bravo	Respiratory tract and ENT infections without pulmonary or systemic complications	
	Charlie	Asthma or reactive airways symptoms or signs	
	Delta	Flu symptoms and pneumonia	
	Echo	Non-specific febrile illness	
	Foxtrot	Systemic haemorrhagic illness	
	Golf	Musculoskeletal disorders	7
	Hotel	Acute neurological symptoms or signs	
	India	Mental health symptoms or signs	1
	Juliet	Dermatological disorders	4
V	Kilo	Sexual exposure	
	Lima	Dental disorders	
	Mike	Bites and stings	1
	November	Battle injuries	
	Oscar	Non-Battle Injuries	
	Papa	Reserved - This event is reserved for future development	
	Quebec	Disorders caused by climate or altitude.	1
	Romeo	Reserved for definition by MEDDIR/MEDAD	
	Sierra	Reserved for definition by nations	
	Tango	Urgent surgical condition NEC	
	Uniform	Urgent medical condition NEC	
	Victor	Rou ine clinical care	3
	Whiskey	Preventive care	

VI	Comments:	**SYPL = SORTE tal. LG = RØDE tal. SYPL har ikke haft adgang til data og systemer i den sidste periode op til indtastning.**

EpiNATO-2 data is to be recorded daily and declared at the end of each reporting period as defined by the MEDDIR / MEDAD.

Reporting period: **#REF!**

Declaration deadline: **NONE**

Declare to (NS/NU):   **Through LOGSITREP**

Protective marking: NATO Unclassified

There are legitimate OPSEC concerns when transmitting precise troop numbers; however, health surveillance is retrospective in nature and the informa ion is already out of date by the time it is received for analysis. Therefore, reported MTF denominators should be reasonably accurate but not exact. As a result they can be transmitted over NU.

Complete the notifiable diseases and events report if necessary when you have one of the following to report:

Unusual or unexpected notifiable diseases that may have a serious public health impact; Diseases that have demonstrated the ability to cause serious public heal h impact and to spread rapidly internationally; Standard vaccine preventable diseases; Other vaccine preventable diseases; Food and waterborne diseases; Vector borne diseases; Zoonosis; or o her diseases and events.

Notifiable infectious diseases and events - AMedP-4.1 Ed A V 2

This section should only be completed with the count of cases by exception

Unusual or unexpected notifiable diseases that may have serious public health impact (WHO International Health Regulations 2005)

NID-01	Smallpox		B03
NID-02	Poliomyelitis due to wild-type poliovirus		A80.1, A80.2
NID-03	Influenza caused by a new sub-type		J11
NID-04	Severe acute respiratory syndrome		U04

Diseases that have demonstrated the ability to cause serious public health impact and to spread rapidly internationally (WHO International Health Regulations 2005)

NID-05	Cholera		A00
NID-06	Plague		A20
NID-07	Yellow fever		A95
NID-08	Ebola, Lassa or Marburg viral haemorrhagic fevers		A96.2, A98.3, A98.4
NID-09	West Nile virus infection		A92.3

Standard vaccine preventable diseases

NID-10	Diphtheria		A36
NID-11	Measles		B05, A81.1
NID-12	Mumps		B26
NID-13	Rubella		B06
NID-14	Whooping cough		A37
NID-15	Tetanus		A35

Other vaccine preventable diseases

NID-16	Hepatitis A		B15
NID-17	Hepatitis B		B16
NID-18	Japanese encephalitis		A83.0
NID-19	Meningococcal infection		A39
NID-20	Rabies		A82
NID-21	Tick-borne encephalitis		A84
NID-22	Typhoid fever		A01.0
NID-23	Varicella		B01

Food and waterborne diseases

NID-24	Amoebiasis		A06
NID-25	Botulism		A05.1
NID-26	Brucellosis		A23, M49.1
NID-27	Campylobacteriosis		A04.5
NID-28	Cryptosporidiosis		A07.2
NID-29	Giardiasis		A07.1
NID-30	Enterotoxigenic Escherichia coli infection		A04.1
NID-31	Legionellosis		A48.1, A48.2
NID-32	Listeriosis		A32
NID-33	Paratyphoid fever		A01.1-A01.4
NID-34	Salmonellosis		A02
NID-35	Shigellosis		A03
NID-36	Trichinellosis		B75

Vector borne diseases

NID-37	Malaria		B50-B53
NID-38	Leishmaniasis		B55
NID-39	Dengue fever		A97
NID-40	Chikungunya		A92.0
NID-41	Relapsing fever		A68
NID-42	Rickettsioses (spotted fever, and typhus)		A75-A77, A79
NID-43	Lyme disease		A69.2
NID-44	Venezuelan equine fever		A92.2

Zoonosis

NID-45	Anthrax		A22
NID-46	Crimean Congo haemorrhagic fever		A98.0
NID-47	Q fever		A78
NID-48	Rift Valley fever		A92.4
NID-49	Leptospirosis		A27
NID-50	Tularaemia		A21

Other diseases and events

NID-51	Methicillin resistant S. aureus infection		U80.00
NID-52	Infection with human immunodeficiency virus (HIV)		B20-B24, R75, Z21
NID-53	Infectious mononucleosis		B27
NID-54	Influenza caused by an existing subtype		J09-10
NID-55	Leprosy		A30
NID-56	Scarlet fever		A38
NID-57	Sexually transmitted diseases (excl. HIV infection)		A51-A64
NID-58	Streptococcal A sepsis or infec ion (excl. Scarlet		A40.0, B95.0
NID-59	Tuberculosis		A15-A19
