

Invitation

Parliamentary Leadership for the 2030 Agenda Webinar Series Climate Leadership: Preparing for COP26

March 22, 2021 | 8:00 am to 10:00 am EDT | 1:00 pm to 3:00 pm CET | [Other Time Zones](#)

Dear Hon. Member of Parliament,

We are pleased to invite you to the second event of our **Parliamentary Leadership for the 2030 Agenda Webinar Series**, titled **Climate Leadership: Preparing for COP26**. The COVID-19 pandemic forced the postponement of the 26th UN climate conference (COP26) and the 15th UN biodiversity conference (COP15), which will both now take place this year. In this context, decisive action from governments and legislators is urgently needed to address the increasing rate and impact of climate hazards all over the world.

To that end, we will be holding a lively discussion centered on strategies that can be implemented by parliamentarians to address the current climate crisis, including how to best use their policymaking, budget allocation and government oversight roles to deliver results in climate action. Leading experts will share their insights and proposals. Their presentations will be then followed by a dialogue with and between members of parliament to determine the most suitable mitigation and adaptation approaches.

Please confirm your participation by [registering here](#). Connection details will be sent to confirmed participants a couple days in advance of the event. Kindly see the attached concept note and agenda for further details.

We are looking forward to having you join us and take part in a unique conversation on how to step up to the challenges posed by climate change.

With our warm regards and gratitude,

Gabriela Cuevas Barron, Co-Chair, UHC2030 Steering Committee
Jeffrey Sachs, President, Sustainable Development Solutions Network
Kirsten Brosbøl, Founder, Parliamentarians for the Global Goals

About the organizers: The SDSN is a network of over 1,200 universities in about 130 countries working to support the Sustainable Development Goals (SDGs). Parliamentarians for the Global Goals is a new initiative by and for parliamentarians to promote the SDGs through parliamentary actions around the world. UHC2030 is a global movement that seeks to strengthen health systems for universal health coverage through a multi-stakeholder platform promoting collaborative work at both global and country levels.
