Mr. Peter Juel-Jensen,

**Head of Delegation of
Denmark in the OSCE PA,**

Treasurer of the OSCE PA

Dear Mr. Juel-Jensen,

As you are well aware, on the 24th of February it will be one year since the Russian Federation has launched a full-scale war of aggression against my country. A decision to start this invasion was widely supported by the Russian parliamentarians, including all members of the Russian delegation to the OSCE PA.

Our consolidated position with regard to the aggressor state and its accomplice is of crucial importance to restore peace and stability in Europe as well as respect for the principles of the Helsinki Final Act.

We are well informed that it could be the provocations on 23-24 February and the risks. In this regard, I have addressed to Ms. Margareta Cederfelt, President of the OSCE PA to call on extraordinary Bureau meeting (letter enclosed).

We believe that under these extraordinary and exceptional circumstances the OSCE PA Bureau can be convened for an urgent meeting to adopt an appropriate decision to postpone the Winter meeting.

We call our friends to support our proposal.

Enclosure: as stated.

Sincerely yours,

Head of the delegation
