

# Releasing the Potential of the Danish Eco-system for Innovation and Impact

## Listen to International Best Practice and Paving the Way Forward

Invitation-only conference

### Conference 25<sup>th</sup> of October 2023 in Copenhagen

On behalf of the Villum Foundation funded programme, Spin-outs Denmark, the eight Danish universities invite key stakeholders from the Danish innovation ecosystem to join us to discuss innovation and entrepreneurship in Denmark.

We invite you to an inspirational and action-focused debate on how to overcome challenges and implement solutions which will take Denmark to the next level. The day consists of keynote speakers, panel debates and international best practise and inspiration. The audience will be representatives from senior university management and key stakeholders from ministries, industry, public and private foundations, investors, and the spinouts community.

Our speakers will bring constructive, actionoriented solutions and ideas to the table on how stakeholders can play an (even more) active role in strengthening ecosystem for innovation and spin-outs.

The conference is held at Copenhagen Business School, Frederiksberg, on the 25th of October from 8:30-16.30. The day ends with bubbles, canapes, and networking.
