### Formål:

Formålet med rejsen er at få en status og fremtidsudsigter for Japans økonomi, herunder særlig ift. hvorledes landets demografiske udfordringer med en aldrende befolkning og en faldende fertilitet håndteres og italesættes i en politisk kontekst.

Derudover ønsker udvalget indsigt i, hvilke tiltag Japan har taget i den nuværende geopolitiske situation med øget protektionisme, herunder ift. samhandel med særlig USA og Kina, og hvordan Japan arbejder med nationale visioner og strategier inden for bl.a. life science og udvalgte teknologier til at forbedre produktiviteten, herunder AI.

Endeligt ønsker udvalget et indblik i samhandlen mellem Danmark og Japan og danske virksomheders arbejde i landet.
