Join Us in Seville: The 10th Future of Biogas Europe Summit – Paving the Way for a Net-Zero Future!

Sponsored By:

We are delighted to invite you to the [10th edition of the Future of Biogas Europe Summit](#), taking place on **26th–27th November 2025 in Seville, Spain**.

As Europe accelerates its transition towards energy independence and a net-zero future, **biogas is emerging as a cornerstone of sustainable energy solutions**. Currently supplying **22 bcm of renewable gas**, the sector has the potential to deliver **101 bcm by 2040**, covering over **80% of the EU's projected gas consumption**. This makes biogas a crucial enabler of **grid flexibility and decarbonisation**. However, unlocking its full potential requires **robust regulatory support, increased investment, and widespread industrial adoption of renewable gases such as biomethane**.

Despite its vast potential, the biogas industry faces key challenges in 2025, including regulatory uncertainties, economic viability concerns, public perception issues, and the need for technological advancements. Securing a sustainable feedstock supply and integrating biogas into existing infrastructure remain critical hurdles that must be addressed. Overcoming these challenges will require industry-wide collaboration, innovation, and strong policy advocacy to

ensure biogas plays a central role in Europe's energy transition.

Don't miss this **exclusive opportunity** to connect with **senior executives, industry leaders, and experts** from across the biogas value chain. Engage in two days of **thought-provoking discussions, high-level networking, and strategic collaboration** as we drive the future of sustainable energy forward.

Key Topics Include:

- From Policy to Practice: Navigating the Regulatory Landscape for Biogas Development
- Unlocking Spain's Market Potential for Biogas
- Revolutionizing Project Development: Overcoming Challenges, Leveraging Opportunities & Improving Operational Efficiency
- Untapped Potential of Biogenic CO2
- Technological Innovations: Exploring the Latest Advancements in the Industry

- Panel Discussion: From Investment to Innovation: Financing the Growth of the Biogas Industry
- Effectively Commercialising Biomethane: Strategies for Driving Market Uptake and Overcoming Barriers
- Building Sustainable Biogas Business Models in an Uncertain Future
- Unlocking the Potential of Digestate: Innovative Approaches to Utilization in Agriculture and Beyond
- Small vs. Large-Scale Biogas Projects: Balancing Innovation and Economies of Scale
- Social, Economic, and Community Impact: The Role of Biogas Projects in Job Creation and Local Benefits

Our previous Future of Biogas summit attracted over 200 senior-level industry professionals. Below is a glimpse of some of the participants who joined us:

Iveco | Repsol | Future Biogas | Gasum | BP | RWE | OrangeGas | TotalEnergies | Nature Energy | Vitol | A Green Trading GmbH | Act Commodities | agriportance | Alpiq | Avanca | B9 Solutions Ltd | BASF | BBIA | Biocarbonics | Biokraft | BioValue BV | BMP Greengas | British Compressed Gas Association | CCS Energie-advies | Consorzio Italiano Biogas | DBG Bio Energy BV | Engie | Entrex Services S.R.L. | Eurogas | European Biogas Association | European Energy Innovation | Gelsenkraft GmbH | GRDF | Grissan Energy | H.G.S.
